LBJ Makes Secret Trip To Viet Nam

By GEORGE MCARTHUR
MANILA (AP) — President Johnson made a secret trip to Viet Nam today, and returned tonight to Manila.
The President went to Cam Ranh Bay, a well-guarded U.S. controlled base on the Viet Nam coast where he was cheered by U.S. soldiers and pilots. Secretary of State Dean Rusk accompanied him.
Awaiting them at the base, 180 miles northeast of Saigon, were South Viet Nam's chief of state, Gen. Nguyen Van Thieu, and Premier Nguyen Cao Ky, who had arrived a short time before from the Manila summit conference.
The trip was shrouded in utmost secrecy, and no U.S. official would comment during the seven hours Johnson spent flying to Viet Nam, inspecting the base and flying back to Manila.

Visits Base, Returns To Manila

Johnson toured the big complex of harbor, air and logistic bases for 2 hours and 24 minutes. He visited one of the forward hospitals in the northern part of the base. He traveled in a jeep over dusty roads with a large entourage following him.
Four squadrons of F4 Phantom jet fighters are based there. In the crowds of U.S. servicemen who cheered Johnson were pilots who had just returned from bombing missions against Communist installations in South Viet Nam.
Afterward, Johnson toured the logistics base where U.S. Army supplies are stored.
Chief of State Thieu welcomed Johnson to the base. He told reporters later in Saigon that he had invited the President to visit South Viet Nam.
It was Johnson's second visit to South Viet Nam. As vice president, he went to Saigon in 1961 on a two-week fact-finding tour for President John F. Kennedy.
Johnson's plane returned to Manila today shortly before 9 p.m. — 9 a.m. EDT

The President canceled a speech at the U.S. Embassy in Manila and disappeared from the Philippine capital in mid-afternoon. U.S. Ambassador William Blair Jr. said Johnson was leaving "other commitments" and would be in Manila Thursday morning for his departure for Thailand.
Although U.S. officials in Manila and Saigon would give no clue to the President's whereabouts, two high South Vietnamese officials told newsmen in Saigon Johnson had arrived at Cam Ranh Bay, one of the most secure American bases in Viet Nam.
The President dropped from sight after touring Corregidor Island in Manila Bay, and then taking a helicopter from the World War II battleground. Officials at the Manila airport, where Johnson had landed three days ago, said the presidential jetliner Air Force One was no longer there.
A reliable Vietnamese source in Saigon said Premier Nguyen

Cao Ky and Chief of State Nguyen Van Thieu had stopped in Cam Ranh on their way home from the Manila summit conference to meet with Johnson on Vietnamese soil.
Although Johnson had repeatedly denied that he planned a stop in Viet Nam during his current Far Eastern tour, the report persisted that he would go there and was issuing denials for security reasons.
It also was noted that his schedule for the summit conference was so drawn that the dates of Oct. 26-27 would permit the Viet Nam trip if Johnson so desired. His official schedule listed no essential activities after the embassy speech and he is not due in Thailand until about noon Thursday.
An officer at Philippine air force headquarters was asked if a jet escort had been arranged today for any possible presidential flight as is customary for a departing chief of state.
"I cannot answer that question," he said.
Earlier today the President cut out a luncheon at the International Rice Institute at Los Baños and moved up his tour of Corregidor by an hour.
It would be easy for Johnson to fly to Viet Nam and return in time for his formal departure from the Philippines. The flight by fast jet to Viet Nam takes barely two hours.

43 Killed In Fire Aboard U.S. Carrier

U.S. Troops And Planes Rout Enemy

43 Of Viet Cong Killed, 2 Captured In 2-Hour Battle

SAIGON, South Viet Nam (AP) — U.S. air cavalrymen and supporting planes routed a company of Viet Cong in a two-hour battle on the coast 110 miles northeast of Saigon Tuesday and reported 48 enemy killed and two captured.
Casualties among the cavalrymen were reported light, but a H13 observation helicopter was shot down during the engagement and its two crew members were wounded, a U.S. spokesman said.

A second helicopter — a troop transport — was knocked down by ground fire in another engagement 35 miles northwest of Saigon. The spokesman said there were no casualties among the crew or troops aboard.

The helicopter losses brought to 218 the total downed in the war thus far, 215 of them in South Viet Nam. Losses of other U.S. planes reached 546 Tuesday with disclosure of two not previously announced.

In the coastal fight northeast of Saigon, a company of the 1st Cavalry, Airmobile Division tangled with an estimated 150 Viet Cong 16 miles northeast of Phan Thiet, capital of Binh Thuan Province. It was the first engagement reported in the region in recent months.

A U.S. spokesman said the Viet Cong fled after a two-hour battle. (Turn to VIET NAM, Page 6)

Jury Returns Guilty Verdict In Auto Death

LISBON — A Common Pleas Court jury returned a verdict of guilty Tuesday in the second-degree manslaughter trial of William A. Pfingsten 20, of East Palestine R. D. 1.

He was charged with "unintentionally taking the life of Gregory W. Lange, 18, of East Palestine, while violating a traffic law."

Cars driven by the two youths crashed almost head-on about 1:30 a.m. June 11 on the back road from East Palestine to Unity.

Pfingsten testified he can remember only dropping off the right hand and seeing headlights. He was driving north and Lange south.

Cpl. Howard Reinke of the State Highway Patrol testified Lange's car left skidmarks in the southbound lane while Pfingsten's car left tire marks as it swerved across the center line. The officer said debris from the collision was in the southbound lane and both vehicles went over an embankment at the west side of the road.

The jury deliberated more than three hours.

Judge Raymond S. Buzzard deferred sentencing Pfingsten and released him on his own recognizance.

11 Selected For Sheppard Retrial Jury

Tentatively Seated As Selection Goes Into Its Third Day

CLEVELAND, Ohio (AP) — Another juror — making a total of 11 — was selected tentatively today in the murder retrial of Samuel H. Sheppard who is charged with bludgeoning his first wife, Marilyn, 12 years ago.

In the hour session prior to the mid-morning recess, a housewife of about 60 was added to the five men and five women given temporary places in the jury box during the first two days of the trial.

Two other prospective jurors were excused for cause this morning — a man who said he had a fixed opinion about the defendant and a housewife who said she was afraid she couldn't be impartial.

Five prospective jurors remain from the original panel of 24. A total of eight have been excused.

After one more juror is chosen attorneys for both sides will be able to remove four each from those already seated without having to give cause.

Intensive questioning about their attitudes on circumstantial evidence and the presumption of innocence for Sheppard led to dismissal of four women prospects Tuesday.

Sheppard, again wearing a dark suit, was on hand early for today's session which began 15 minutes late. Prior to the court's convening, Sheppard had

Mayor's Hospitalized After Minor Surgery

Mayor George E. Willshaw is recovering at North Side Hospital in Youngstown, where he underwent minor surgery Monday night.

Physicians have indicated the mayor may be released from the hospital this weekend.

Council President Ernest Lowe is acting mayor during Willshaw's absence.

Viet Troop Withdrawal Hanoi, Peking Silent On Offer

TOKYO (AP) — North Viet Nam and Red China kept officially as offering nothing dramatic today on the Manila conference's troop withdrawal offer. Pravda and Tass discounted the proposal, and there were new calls for suspension of the U.S. bombing of North Viet Nam.

Neither Hanoi nor Peking broadcasts mentioned the communiqué signed Tuesday by the Viet Nam allies pledging to withdraw their troops from South Viet Nam six months after North Vietnamese forces quit the war.

Elsewhere, the communiqué brought a mixed reaction at the United Nations, disappointment in Tokyo, faint optimism in London and little excitement in Saigon, where it was viewed unofficially as offering nothing dramatic.

No Present Major Commitment U.S. Planning No Rush To Step Up War In Delta

WASHINGTON (AP) — The United States will delay as long as possible any decision to step up the pace of the war in the Viet Cong-infested area of the Mekong Delta, U.S. officials indicated today.
Sources described present military plans for the delta in the southernmost part of South Viet Nam as quite modest. They said no immediate major commitment of U.S. ground forces in the area is expected.
Present plans call only for heavier support for the South Vietnamese and American joint army-navy river armadas aimed at blocking rivers and coastal areas and flushing out enemy units, officials said.
It has been widely reported that another U.S. combat division is expected to be sent to Viet Nam for eventual duty in the area known as the 4th Corps. It was learned that these troops, if committed, would be stationed in the area of the delta surrounding Saigon to the north — the area known as the 3rd Corps. (Turn to DELTA, Page 3)

Thai Troublemakers Warned On LBJ Visit

BANGKOK, Thailand (AP) — Thailand's Interior Minister warned troublemakers today they would be punished severely if they disturb President Johnson's visit to Bangkok.
Martial law has been in force in Thailand since 1959 and demonstrations are illegal, said Gen. Praphas Charusathien. He added that he didn't think there would be any trouble during the President's visit.
The President is to arrive Thursday in Bangkok to begin a two-day visit.

Bethlehem's Quarter Best In Its History

U.S. Steel Reports Dividend Increase, But Lower Profits

NEW YORK (AP) — Bethlehem Steel, the nation's second largest steel producer, reported today the best third-quarter earnings in the company's history. Its quarterly dividend of 37½ cents per share was unchanged.

U.S. Steel, the industry's largest producer, had announced Tuesday a dividend increase but lower profits.

Bethlehem also said the net income for the nine months ended Sept. 30 was the best for any nine-month period since 1957.

Bethlehem said net income for the past three months of this year totaled \$46,196,000, or \$1.01 a share, compared with \$32,230,996 or 70 cents per share for the same period of 1965.

The developments come as General Motors, one of the steel firms' biggest clients, made public the lowest quarterly earnings figures in five years. It

On Route 66

District Woman Killed In Crash

A Newell area woman was pronounced dead shortly after 7 this morning at City Hospital from injuries received in a head-on collision of two autos on Route 66 in the vicinity of Congo.

She was Mrs. Bessie O. Rice, 38, of New Cumberland R.D. 2. Mrs. Rice was on her way to work at Weirton General Hospital when the accident occurred at about 6:30.

The Hancock County sheriff's department is investigating the wreck, but at press time had released no details. It was reported, however, there was heavy fog in the area of the collision.

Mrs. Rice was born in Wheat, W. Va., Oct. 18, 1928, a daughter of Richard Yoho and Hazel. The Arner Funeral Homes is Seyoc Yoho, who reside at Pine Grove, W. Va. She had lived in the community for 13 years and was an aide to the anesthetist at Weirton General Hospital for the past two years. She was a member of the Chester Church of Christ.

Atlas-Centaur Breaks Jinx

U.S. Gains First Double Ignition In Space Engines

CAPE KENNEDY, Fla. (AP) — The United States today achieved the first double ignition in space of high-powered hydrogen-fueled engines as an Atlas-Centaur rocket broke a long-time jinx.

The fiery departure of the 113-foot-tall rocket at 7:12 a.m. triggered a planned doubleheader launching here today. At 7:05 p.m. the space agency is to launch a satellite for the Communications Satellite Corp.

The Comsat satellite is to be placed in stationary orbit above the Pacific to serve as the first commercial space communications link between North America, Hawaii and Southeast Asia.

After the upper stage of the Atlas-Centaur scored the hydrogen breakthrough, it hurled a dummy model of a Surveyor spacecraft toward an empty spot deep in space which for test purposes represented the

16 Others Injured On Oriskany

Craft Cruising In Gulf Of Tonkin As Tragedy Strikes

SAIGON, South Viet Nam (AP) — Fire broke out aboard the U.S. carrier Oriskany today and raged out of control for an hour, killing 43 men and injuring 16 others, an American spokesman announced.

A few hours later, President Johnson made a flying visit to the Viet Nam war zone and toured the big U.S. base at Cam Ranh Bay, 180 miles northeast of Saigon. Then he flew back to Manila.

The fire aboard the Oriskany erupted in the hangar bay, just below the flight deck, as the 42,000-ton warship cruised in the Gulf of Tonkin, 60 to 100 miles off the coast of North Viet Nam, from where it had launched strikes against the North.

The Navy spokesman said the fire apparently was caused by flares igniting in the hangar bay, where planes and some fuel are stored.

The fire raged from 7:45 a.m. to 8:45 a.m., before it was brought under control. But some flash fires continued and it was 3:45 p.m. before all were out.

The carrier Constellation came up to help and sent doctors, hospital corpsmen and chaplains aboard the Oriskany. The seriously injured were transferred to the Constellation.

The Navy said it was impossible at once to estimate the damage to the Oriskany, a veteran of the Korean War making its second tour of duty off Viet Nam.

Area Returns To Slow Time Sunday At 2

Those planning weekend trips will do well to remember that slow time will return early Sunday morning.

The change from daylight saving to standard time will take place officially at 2 a.m. that day, with clocks to be set back an hour.

This is the last year that Ohio will be a time-divided state. Federal legislation requires that communities observing DST next summer do so on a statewide basis or remain on Eastern Standard. Ohio's legislature must face up to the issue when it meets in January.

The dividing line now begins at the north just west of Vermilion on Lake Erie, runs south and eastward west of Wellington, east of Ashland, south of Wooster, then southeastward crossing the northern part of Tuscarawas County, north of New Philadelphia and south along the west boundaries of Harrison, Belmont and Monroe counties and including Washington County on the Ohio River. It then skips southwest in Athens and Chesapeake in the southeastern part of Lawrence County.

Case Astonishes Judge

Cyclist Fined And Jailed In Drunk Driving Charge

Pleading guilty to the unusual charge of drunken operation of a motorcycle, a 25-year-old Canton man was fined \$200 and costs, sentenced to a three-day jail term and given a 90-day suspension of his operator's permit today by an astonished Municipal Judge Samuel M. Chertoff.

Ralph H. Neiswanger of 1232 Park Ave., Canton was cited by the State Highway Patrol Sunday afternoon after his cycle veered off Township Rd 1002 a mile west of Route 45 in the Wellsville vicinity.

"How on earth could you ride a motorcycle when you're drunk?" the judge asked after the defendant pleaded guilty.

"Apparently I couldn't," Neiswanger replied ruefully. He limped into court this morning after his discharge from City Hospital. A passenger, Robert Pryor, 37, also of Canton, also was injured in the crash. The patrol said the cycle went off the highway on a curve, hopped a shallow ditch and overturned in a farm field.

Pryor, who allegedly caused a disturbance in the hospital emergency room, was fined a total of \$125 and costs in Municipal Court Monday on charges of assault and battery, intoxication and resisting arrest.

Meanwhile, Arthur C. Darrah of Weirton forfeited a \$17.50 bond today when he failed to appear on a charge of speeding 60 miles an hour in a 50-mile zone on Route 7. He was cited by the patrol Friday at 7:55 a.m.

Elio P. Lerussi of LaCrosse, Wis., also cited Friday morning on a charge of speeding 60 in the same stretch, was fined \$10 and costs when he pleaded "no contest."

was the third straight three-month period that GM lagged behind its 1965 profit pace.

U.S. Steel, in the face of a profit-squeeze, increased its quarterly dividend by 10 cents to 60 cents per share Tuesday, the first increase since 1962's third quarter when dividends were cut 25 cents.

Roger M. Blough, U.S. Steel chairman, said the action was an attempt "to do something for stockholders after a number of years in which stockholders have had fewer dividends."

He told newsmen that the "over-all (economic) action had a bearing on our action. We're not looking forward to as much growth in the gross national product next year as this year but we're not looking forward to a major movement in the other direction."

U.S. Steel reported lower earnings for the past three months and for the year to date.

Income for the quarter ended Sept. 30 totaled \$61,635,150, or \$1.13 per share, compared with \$77,428,706 or \$1.43 per share in the second quarter.

Nine months' income was

\$189,153,367 or \$3.49 per share compared with \$226,538,559 or \$3.84 for the same period of 1965.

Blough said increased costs were the chief reasons behind the slump in profits. Among the ones he cited were increased pension costs paid to the United Steel Workers Union.

U.S. Steel's sales for the nine months this year totaled \$3,358,401,412 compared with \$3,498,661,909. Steel shipments for the first nine months of this year were 16,453,693 tons compared to 18,188,656 tons in the first nine months of last year when stockpiling took place in expectation of a strike that did not materialize.

Corps. Three U.S. divisions now are operating there.

Although some U.S. sources in Viet Nam have made it clear they think American fighting men are needed in much greater numbers in the 4th Corps area Pentagon officials emphasized that a decision is being thoroughly weighed.

"High level decisions are now under consideration," one source said. "It's still a 50-50 proposition." He added that the political aspects of U.S. deployment there are being measured against these questions:

"Do we want to speed the pacification program in the delta?"

"It's progressing but more troops would speed it up."

"Do we need control of the waterways, particularly in view

of the delta's abundant rice crops?" In former years the 11,000 square miles of the delta produced 1.5 million metric tons of rice annually above the area's needs. That surplus no longer is available — a fact most sources consider an indication of the effectiveness of Viet Cong control there.

The number of Viet Cong in the delta is estimated at more than 30,000. In addition to this, U.S. military advisers say the Viet Cong are recruiting thousands of fresh troops from the delta's six million residents each month and sending them into other combat zones to fight.

There are now about 5,000 American advisers in the delta and one brigade of the 25th Division — normally stationed near Saigon in the 3rd Corps area — has conducted some operations there. Otherwise, the United States has held hands off this far.

Sheppard

a low-voiced, animated conversation at the counsel table with F. Lee Bailey of Boston, his chief attorney. At times their talk appeared heated.

Bailey renewed a motion he made Tuesday to empty the jury box because one woman under interrogation had answered "No" when Bailey asked her: "Do you presume Dr. Sheppard to be innocent?"

Common Pleas Judge Francis J. Talty again overruled Bailey's motion.

Sheppard followed the morning proceedings intently and appeared less fidgety than Tuesday. He did not take notes at the start of today's session, but Tuesday had scribbled on a yellow legal note pad.

The 42-year-old former Bay Village osteopath maintains a bushy haired stranger entered his Lakewood home July 4, 1954, beat his wife to death and knocked him unconscious.

He was indicted for first degree murder, but a jury convicted him of second degree murder, the charge for which he is being retried.

Sheppard spent nine years in prison before his release on \$10,000 bond by a U.S. District Court in 1964. The U.S. Supreme court upheld the ruling last June and ordered a retrial.

launching unmanned probes to the moon, Mars and Venus. The flight also provided confidence for the Apollo program, whose Saturn 5 man-to-the-moon rocket will require twin firings of upper-stage hydrogen engines.

After hitting the paper moon on Friday, the payload was to enter a wide-looping orbit about the earth extending out as far as 292,000 miles.

Atlas-Centaur have launched two actual Surveyor craft on pinpoint courses toward the moon, but only a single engine ignition was required for those so-called direct-ascent flights. With a Centaur re-start capability, the space agency will have considerably longer periods in which to launch toward planets.

With one burn for example, the Centaur can head for the moon only during the months of July through October. With two, it has year-round capability.

New Cumberland Club To Sponsor Halloween Event

NEW CUMBERLAND — Plans for a children's Halloween party were made at a meeting of the New Cumberland Lions Club Tuesday night at Swaney Memorial Library.

It will be held Monday, with a parade featuring the New Cumberland Junior High School band forming in front of Squire John D. Herron's office on Pearl St. at 6 p.m.

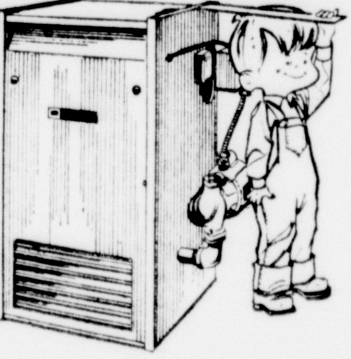

The parade will proceed to the Community House, where the party will take place. Prizes will be awarded for 12 different varieties of costumes.

Plans also were discussed for the annual Christmas candy sale, with Allen S. Fields chairman.

The guest speaker last night was John W. Day, resident engineer of the Air Reduction Co., who explained the various operations and products of the new plant being erected adjacent to Route 66 near Waterford Park race track.

Perhaps A War Without End

No clear consequence of the Asian "summit conference" in Manila is visible.

But a possible consequence of the undeclared war in Viet Nam is coming clearly into view now that the Pacific "allies" have made the journey to Manila and back.

Perhaps a war without end is going to be waged in Southeast Asia.

Since 1953 there has been a war like this in Korea. The circumstances of the war there and the war in Viet Nam are parallel.

What happened in Korea was that a war which neither side could win was brought to a close on terms that made it possible for both sides to say they didn't lose. They saved face. They lost their shirts, but they saved their faces.

Both sides are losing their shirts in Viet Nam.

THEY ARE exacting a terrible price from noncombatant civilians with their military depredations.

The Vietnamese are sick of a shooting war that has been going on for a generation.

Americans are sick of the terrible cost in life and money of their own involuntary and un-

declared role in a conflict they never wanted to get into in the first place.

If both combatants are in a mood for a tacit agreement to ease off their efforts on the battlefields, in favor of some form of truce similar to that in Korea, there is hope for settlement.

Perhaps it would be another war without end.

But neither combatant would have lost. The South Vietnamese would have averted outright domination by Communist-dominated North Viet Nam and the Viet Cong.

The Communists would have averted outright defeat by the United States, which they regard as an interloper trying to restore colonialism in Southeast Asia.

THE UNITED STATES would have a chance to demonstrate its good intentions.

It would be another standoff like the division of postwar Germany into West Germany and East Germany, North Korea and South Korea . . . North Viet Nam and South Viet Nam . . . Red China and Nationalist China.

The pattern is traditional in the second half of the 20th century. Communists make the move to seize, the United States goes to the rescue—and they settle for a truce.

Notice Anything Different?

It took Congress so long to adjourn this year that adjournment was an anti-climax when it finally occurred at the close of last week.

The truth is that representatives and senators, who shot their legislative wad in the first session of the 89th Congress, spent their time in the second session marching up the hill and back down again.

The truth is that no one expected them to do much more than that. The few proposals they argued about hardly were worth the effort.

Everybody wonders now about the 90th Congress, because it will have to make a hard decision. Will it choose to be President John-

son's rubber stamp, or will it choose to be a separate but coordinate branch of the government?

The 89th Congress occasionally showed flashes of self-determination. But its members were betwixt and between national elections. They didn't know for certain which side their votes were buttered on.

They will know after Nov. 8.

The 89th Congress will go down in history for compliance.

The 90th may go down in history for something else.

Wirtz, saying productivity is up even higher — to 3.8 per cent.

Where did he get the higher figure?

From Gardner Ackley, chairman of the President's Council of Economic Advisers and chief proponent of the now defeated effort to hold a 3.2 per cent lid on wage hikes.

A spokesman for the council said Ackley did use the 3.8 per cent figure in the recent congressional testimony, based on revised, higher estimates of the gross national product.

But, the spokesman said, the 3.8 per cent figure didn't take into account later revised man-hour estimates from the Labor Department that "return all the figures back where they were."

Back where? To 3.6 per cent, or to 3.2 per cent?

"There was a shadow figure of 3.6 per cent," the council spokesman said, "but it was not a figure we acknowledged."

THE COUNCIL, he added, still holds to the position that the "estimated trend" in man-hour productivity is still an increase of 3.2 per cent a year. And thus is still the official White House guideline attempting to limit wage increases.

AFL-CIO officials were incredulous at the argument. "The lowest estimate you can possibly get from the Labor Department's revised figures is 3.7 per cent," said one spokesman.

"They can stand on their heads or anything else and it's still 3.8 per cent," said Nathaniel Goldfinger, chief economist for the big labor federation.

The AFL-CIO, which thought it had buried the 3.2 per cent figure months ago, vehemently insists the old guideline is dead.

"Maybe it's still alive and hiding out in Brazil," cracked one AFL-CIO source. "But if it is, we have no extradition with that country."

everything within reach and only the availability of temptation varies.

That and the fact there are more people than there used to be, that everybody has more mobility and everybody has more money—these are the only differences between today and day before yesterday.

Nothing—absolutely nothing — has happened to people.

Nothing ever does. Change in human nature and human nature's responses to social phenomena is imperceptible.

Odd-balls doing kooky things in 1966 will turn into lard-bellied burghers and hippy matrons by 1986. You can bet on it safely and give 10-1 odds. If you had bet on it 20 years ago you would be rolling in wealth today. Or 20 years before that . . . or 20 years before that.

Ain't it so?

Odd Facts

For untold centuries, the Ganges has been holy to Hindu India. People of all stations of life come to bathe in its waters; water is bottled and carried home for those unable to make the pilgrimage. Tradition goes that Ganges water keeps for years without going stagnant, and a single drop on the tongue or eyelids of a dying man is believed to cleanse him of sin.

So huge is the star Belleuse that the sun could be placed in its center and there would be room within its circumference for Mercury, Venus, the earth and Mars to revolve inside the star in their present orbits.

The surname O'Brien is derived from Brian, the Christian name of the greatest medieval king of independent Ireland. Usually known as Brian Boru, he was killed in a battle in 1014.

Distilling, although known to the ancients, was not applied to wine commercially until the 16th century, when the brandy trade began.

'It's Pollution Or A Political Talk'

Big Union Showdown Seen

By Victor Riesel

WASHINGTON — To paraphrase Sir Walter Scott — the sun never sets on Walter Reuther.

From the Congo to the Copacabana, from Mount Fuji to Mount Kenya, from Washington to Tunisia, Reuther's organizers trot the world. They supply films. They hand out movie projectors. They distribute literature in Arabic and Japanese.

They run underground operations in Africa. They finance undercover activities inside Spain.

Still, the rusty-haired leader of the 1.5 million - member United Auto Workers wants more freedom of action. He feels the activities of his UAW International Affairs Department, directed by his militant younger brother Victor, are too restricted by the policies of the national AFL-CIO. He believes these policies, developed under the leadership of its president, George Meany, don't compromise sufficiently with the necessities of coexistence.

"Walter," for example, believes there can be no real military victory in Viet Nam. "Victor" is bitterly opposed to President Johnson's policies in South Viet Nam. "Mr. Meany" stands solidly — with a solidity the Rock of Gibraltar now wishes it had—behind the President.

SO REUTHER HAS CALLED for a showdown inside labor's high command over the AFL-CIO's foreign policy. The Detroitier wants a complete review of the national headquarters' Department of International Affairs' attitudes and activities — which Victor Reuther says are linked with the Central Intelligence Agency.

That showdown, undoubtedly highly decibel, will come sometime early in the week of Nov. 14 here. Labor's national executive council is scheduled to meet that Monday morning. Reuther reportedly wants the sessions to run three days. It may take that long.

Just what new policies Reuther wants he has not yet made clear to his peers on the central command.

These policies, of course, are intertwined with the auto union's covert and overt international activities, the full story of which has not been reported.

His International Affairs Department, for example, is deep inside Spain. The auto union runs undercover schools to train leaders for the illegal labor and youth movements. It helps to finance organization drives by these unions. And it publishes anti-government newspapers and pamphlets in and out of Spain.

SUCH ACTIVITY has sprung the lock on strikes and demonstrations and the presentation of petitions to the government.

This action parallels work in Africa. In the past, Reuther reports, the UAW has worked with Zambia's president Kenneth Kaunda, Tunisia's president Habib Bourguiba, Kenya's minister of economic planning and development Tom Mbo-

ya, and Dr. H. K. Banda, prime minister of Malawi—when these leaders were fighting the British and French.

Tons of literature have been distributed on other continents — including reprints of Reuther's own collected works in Spanish, French, Japanese and a special inexpensive English edition in circulating in India.

But Reuther's pride is something new—STEP. This stands for Social, Technical and Educational Programs.

Officially known as UAW Solidarity STEP, it has been incorporated so it can contract for official work with U.S. government agencies such as the Agency for International Development (AID), the Peace Corps, and Food for Peace. Thus STEP can legally administer programs financed by the U.S. government "and international grants and contributions."

TO DEVELOP THE KNOW-HOW manpower for such action, Victor Reuther's UAW International Affairs Department runs a sort of laborite institute for international diplomacy. Union men are selected and trained here and in Detroit for work across the world and possibly for appointment as labor attaches in U.S. embassies.

In all, Walter Reuther probably is more active in an international front than anyone outside the State Department.

There are no objections from the Meany headquarters—so long as Reuther speaks for himself and his big union.

The AFL-CIO does not exactly sit on its own hearth. It spends some 23 per cent of its income—several million dollars—on international activities building free labor forces in burgeoning lands and checkmating Communists' efforts.

The national labor federation command feels it has been effective as a team—and some do believe Reuther is too much a loner.

The big federation is hawkish on Viet Nam—and says so frankly.

The Reuthers are not. They say so frankly.

That's how they'll all talk to each other when the showdown comes.

This 'n That

It is possible to tell how far away an electrical storm is by watching for the jagged streak of lightning, then counting off the seconds until the thunder noise reaches you. Thunder travels one mile in five seconds. If it takes 15 seconds for the noise to reach you after the flash, you know the storm is three miles away.

The Constitution empowers the president to adjourn Congress at such time as he may think proper when the House and Senate disagree with respect to the time of adjournment. No president has, however, exercised this power.

It has been estimated that about 82 per cent of the millions of workers commuting daily to work in the United States use an automobile to get there.

EDITOR OF THE REVIEW

This is in response to a recent letter by Drew Ross Gordon.

My congratulations to The Review for the acknowledgment of spiritual as well as secular thought. God will reward you for taking such a stand in an age of spiritual cowardness.

John Lemon isn't the first to have said, "Christ is on His way out," neither Altizer the first to think, "God is dead." There have been others, to mention but a few who have made the same mistake.

Voltaire said he could laugh Christ and His word out of existence. Ingersol used to love to challenge God to strike Him dead in five minutes. "If there be any," so he said.

Then there was Marx, Darwin, Lenin, Hitler, Stalin and others of this variety. Notice, each man mentioned had things in common that characterize the lower class, animal-like creature that doesn't believe in the higher intelligence. That is, the dog-eat-dog type of man. One who neglects his wife and children, stands by and watches his fellow man butchered, let his family starve, beat his wife and commit just about any injustice, simply to further his ideologies.

THE POINT I want to make is this. Revelation has not ceased. It is more conspicuous today than ever, but it is not light from God—it is of the Satanic kingdom. These men, to mention a few, are ministers. They are inspired by Satan to propound their materialistic philosophies.

The logical outcome of such Revelation of materialism is war, violence, strife, hatred, crime, disrespect of God and consequently disrespect of man, for the one depends upon the other. These are the symptoms of our dying age which Mr. Gordon mentioned with wonder in his letter. Well it is no wonder. It all began in our classrooms about 40 years ago when educators began to teach that God was not our creator, we merely happened by chance. Some blind, dumb, purposeless accident sparked off the first cell, and by some "dog-eat-dog" fight for survival we have progressed (by chance mind you) until this hour. Fiddliesticks! You tell a child he happened by chance, and he'll live by chance. That's exactly what is happening today Mr. Gordon. These same children 40 years ago are running our nation, by chance.

Why doesn't God do something? Why should he? The bible says, "Things shall wax worse and worse." God has given Satan full sway in these last days. Things are going to get worse not better. Perilous times must come. With a general falling away from Christianity shall be accompanying deceivers, false prophets and workers of insurrection (Altizer, Lemon). Also men of sin who exalt themselves as God, and opposeth all that is called God.

Yet, God stands in the shadow watching. He is testing the nation. Beneath God's permissive will the Devil will enjoy his hey-day, making great strides in vanity; and for a while it looks as though he has gained the upper hand. But God is not deaf, dumb, nor blind. There is a definite time set on the clock of eternity that will mark and end to this onslaught of wickedness.

GOD HAS promised that the only time in this last dispensation that He will intervene, either by prophecy or revelation, is to speak the word that throws the whole universe into chaos. Until that fiery destruction, things will continue to wax worse and worse.

Should a prophet appear upon the scene, it would be unwarranted in the scripture which says, "More blessed are they who do not see me and yet believe." We are living in the dispensation of faith. "The evidence of things not seen."

I don't expect God to make His appearance to me in order that I might believe nor do I expect miracles to replenish my faith. I just believe because of His word.

So stick in there. The armies of Satan are on the move. God has placed a sure test before us as we look at these almost impregnable forces of infidelity, but, "This is the victory that overcometh the world, even our faith."

In this way, money spent organizing a chapter is returned many times over as the chapter starts raising money," Coons said. In this past spring's campaign, Ohio chapters of CSF gave over 251 scholarships worth over \$109,300.

Coons is also president of Junior Achievement of Southeastern Columbiana County, Inc. He is a trustee of the Community Improvement Corp. and has served on the Boards of Civic Music,

fight. Air strikes were called in to hit the escape routes.

Air strikes against North Viet Nam again were sharply curtailed by bad weather Tuesday, but U.S. Air Force pilots reported damaging a pier and destroying three barges near Dong Ha.

Navy pilots from the carrier Constellation said they destroyed three barges and set off numerous secondary explosions in a raid eight miles east of Thanh Hoa. U.S. headquarters also announced the start of a new operation, called Thayer Two, by several brigades of the 1st Cavalry. In the first day of the operation, about 28 miles north-west of Qui Nhon on the central coast, the cavalrymen reported

killing seven Viet Cong while taking light casualties. Adelaide Proctor's poem "The Lost Chord" became world-famous when it was set to music by Sir Arthur Sullivan.

Judge Will Ask Court To Appoint Counsel In Case

Judge J. L. MacDonald of Columbiana County Southwest Court at Lisbon will request Common Pleas Court to appoint counsel for William E. Icenhour, 31, of Monaca, Pa., charged with an armed robbery in Wellsville.

Icenhour was without a lawyer when officer Robert Wellington of Wellsville brought him before the judge Tuesday afternoon. The defendant said he had no money to hire an attorney. Judge MacDonald continued the hearing until Friday and remanded the defendant to the County Jail in lieu of \$5,000 bond.

Icenhour is accused of a hold-up at the 12th St. Market the night of Jan. 2 when two men bound the clerk, Mrs. Thelma Peterson, and took money from the cash register and unlocked safe.

Timothy Galloway, 28, of Waynesburg, Pa., Icenhour's brother-in-law, was found guilty of the robbery by a Common Pleas Court jury Oct. 7 and was sentenced to 10 to 25 years in Ohio State Penitentiary. He is in the County Jail awaiting transfer to Columbus.

Visiting Season Ends At 'Old Stone House'

LISBON — The Lisbon Historical Society met Tuesday night in the high school art room and decided to terminate the 1966 visiting season at the Old Stone House — its museum on E. Washington St.

Approximately 1,500 visited the museum this summer and fall. The building was open Friday and Sunday afternoons June through August and Sunday afternoons since August.

The program included slides of the village sesquicentennial celebration in 1953 and pictures of groups which visited the stone house this year.

Election of officers was continued until the next meeting Feb. 28. President Richard Mason was in charge.

Youth Penalized In Ohioville Case

Bobby Joe Todd of Ohioville was fined \$10 and costs for disorderly conduct by Ohioville

Justice of the Peace Richard Wilton Monday night.

Todd and David Burson, with three juveniles, were taken into custody near the Ohioville water tower Oct. 16 at 2:50 a.m. by Ohioville police. Some of the

youths were linked to a painting of a slogan on the tower last May and police said plans were made to paint another slogan.

A hearing for Burson before Wilton was postponed until

next Tuesday. Hearings are slated before Beaver County juvenile authorities for the younger boys, aged 17.

Todd pleaded guilty.

Board Continues Work Of Issuing Absentee Ballots

Noting a gradual increase in the number of applications, the County Election Board is continuing the daily task of handling requests for absentee and disabled voters' ballots for the Nov. 8 general election.

Miss Rebecca Resnick, director, said about 322 of the "early" ballots had been issued through Tuesday afternoon, compared with a total of 650 prior to the last comparable election in 1962.

The board has issued 183 ballots to service personnel and other spouses and civilians residing temporarily outside the United States. All three categories are entitled to ballots under Ohio's so-called "soldier voting" law.

Approximately 139 civilian absentee and disabled voters' ballots have been issued to date.

The number of applications issued for the civilian ballots stands at 246. The civilian ballots became available on Oct. 10.

The number of requests for both civilian and "soldier" ballots appears normal for an off-year election, Miss Resnick commented.

Manila summit conference to be there with the President.

The President's arrival in Viet Nam had been reported earlier by other South Vietnamese officials, but U.S. officials in both Saigon and Manila refused to confirm or deny the reports.

An official with Ky's party said Johnson made a "fairly extensive" tour of the Cam Ranh Bay installation, including a visit to one of the forward hospitals in the northern part of the bay area. The hospital has large numbers of malaria patients and other soldiers recuperating from war wounds.

The official said Johnson drove around the dusty roads in a jeep with a large entourage following him. He inspected the huge air base where four squadrons of F4 Phantom jet fighters are based. He also toured U.S. Army supply storage installations.

The Oriskany fire broke out shortly after dawn in the carrier's hangar bay on the deck immediately below the flight deck, where planes and some fuel are stored. Three crewmen were seriously injured in addition to the 33 dead.

Navy officials said the fire apparently was caused by flares which ignited near a flare storage bay in the forward part of the ship.

The fire broke out at 7:45 a.m. and was brought under control an hour later, but flash fires continued until noon, the Navy said. Officials reported all fires were out by 3:23 this afternoon.

The Oriskany was maneuvering at "Yankee Station" in the Gulf of Tonkin 60 to 100 miles off the coast of North Viet Nam.

This is the area from which U.S. carriers launch strikes against the north.

Two other 7th Fleet carriers are on "Yankee Station," and doctors, medical corpsmen and chaplains were flown to the Oriskany by helicopter from the carrier Constellation.

The seriously injured were transferred to the Constellation for further medical treatment.

The Navy said an estimate of damage was not yet available. The 21-year-old Oriskany, which is commanded by Capt. John H. Jarrobie, is an improved Essex class carrier, a veteran of the Korean War and now on its second tour in Viet Nam waters.

On the war front, scattered fighting was reported and monsoon storms once again cut heavily into U.S. air strikes against North Viet Nam.

U.S. pilots flew only 62 bombing missions Tuesday, well below the usual daily number. U.S. B52 bombers struck at dawn today against a suspected Viet Cong troop concentration and training site 17 miles northwest of Quang Ngai City near the central coast.

On the ground, helicopter-borne units of the U.S. 1st Air Cavalry Division reported kill-

ing 48 Viet Cong Tuesday in a long-quiet sector 112 miles northeast of Saigon in coastal Binh Thuan Province.

The cavalrymen, supported by air strikes, had a two-hour firefight with an estimated 150 Viet Cong.

The cavalrymen said the Viet Cong broke contact and fled but their escape routes were pounded by U.S. air strikes.

Wellsville-JU Game Thursday Starts Local Card Early

Dozen Games Are Scheduled For Weekend

Local gridiron activity will get under way Thursday this week with Wellsville traveling to Jefferson Union.

The Tiger-JU battle is one of 12 games on the local schedule over a three-day period.

Wellsville which owns a 3-4 record dropped a 38-18 contest to Salem in its last outing while JU was being surprised when Southern Local tied the Yellow-jackets.

COACH Norm Allison of JU guided the Jackets to an undefeated season last year and has only lost once this season that being to Winterville.

Nine games are set for Friday night headed by the 12th ranked East Liverpool Potters visiting Weirton. The Potters are on a five game winning streak but Weirton has chalked up several impressive victories so far this season.

Undefeated Midland is on the road again this week traveling to New Brighton. The Leopards were given a scare last week at Rochester before gaining their seventh straight win.

OAK GLEN, with their losing streak broken after a 26-20 win at Beaver Local, entertains Bishop McCort from Pennsylvania. Oak Glen has a 2-6 record with two games remaining. Friday's game will be Oak Glen's last home contest.

A backyard rivalry finds Beaver Local meeting an improved Southern Local team on the Southern gridiron. Coach Beau Bell's Southern team reached new heights last week in playing Jefferson Union to an 8-8 tie.

UNDEFEATED Stanton, ranked ninth in the state Class A poll goes to Brilliant Friday night seeking its seventh straight victory.

On the Tri-County scene, Louisville will go after its 36th straight victory at Columbiana while Poland is at East Palestine, and Leetonia visits Lisbon.

Winless Crestview will travel to Western Reserve to round out Friday's slate.

Two games Saturday afternoon finds West Branch at United while Western Beaver is South Side's homecoming opponent.

NFL Checks New Orleans

NEW ORLEANS, La. (AP) — Commissioner Pete Rozelle of the National Football League says no deals have been made to give New Orleans the next pro franchise in return for help two top congressional leaders, both from Louisiana, gave the sport in ramming antitrust exemption legislation through Congress.

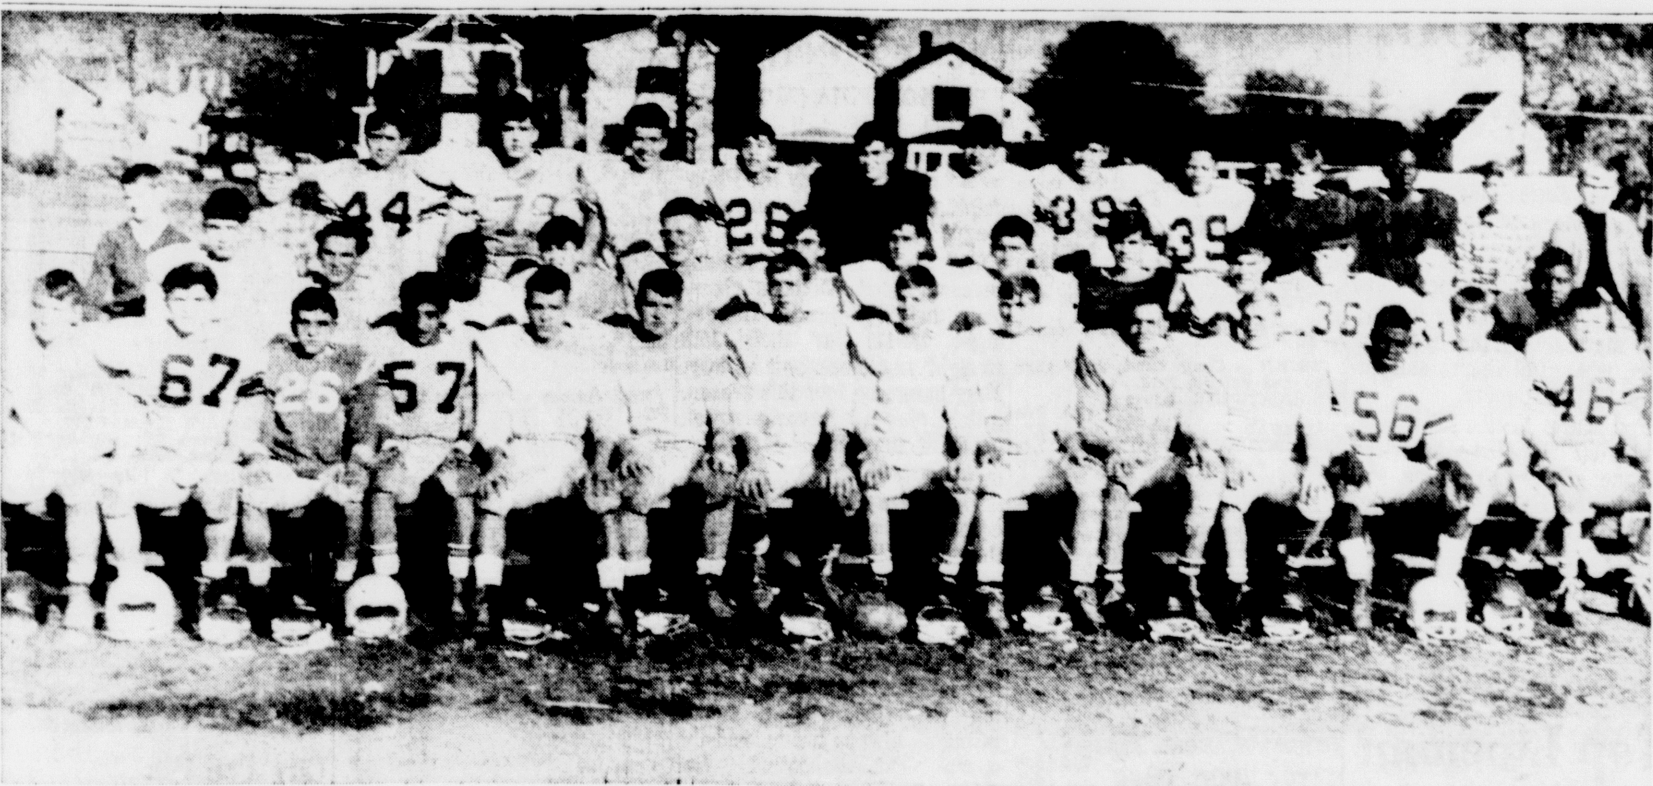

Rozelle and three club owners flew on to Seattle, Wash., today for a look at that city's credentials for pro football. They came here from Cincinnati.

The NFL will pick one of the three cities for its next franchise, expected to be granted within the next 10 days.

Sen. Russell B. Long, D-La., assistant Senate majority leader, and Rep. Hale Boggs, D-La., assistant House majority leader, were instrumental in gaining passage of legislation to give the National and American leagues immunity from antitrust laws in their merger. The linking of the two leagues will be completed by 1970.

Meet Navy And Northwestern

Irish, Spartans Picked To Continue Winning Streaks Over Weaker Foes

NEW YORK (AP) — It is the midway point in the college football season and perhaps this forecaster's 20-20 vision is blurred by the twirling batons of the halftime ceremonies, but not a single upset is in the offing.

Here this week's selections:
Notre Dame over Navy: The Irish can go by land or by air while Navy can go only by sea—and they are playing this one on the turf of John F. Kennedy Stadium in Philadelphia.

Michigan State over Northwestern: The only possible threat to the Spartans on the last half of their schedule is Notre Dame on Nov. 19.

UCLA over Air Force: Gary Began and Mel Farr will be too much for the Flyboys.

Alabama over Mississippi State: Mississippi State's new flip-flop offense has done more

flopping than flipping this season. Wayne Trimble has found the margin won't be much greater than the range as the Tide's quarterback.

Georgia Tech over Duke: The Blue Devils aren't as bad as their 33-7 loss to N.C. State would indicate. But they aren't in Tech's class either.

Florida over Auburn: Steve Spurrier will amaze the young Auburns.

Nebraska over Missouri: Charlie Brown will frighten the Cornhusker fans but not the Nebraska football team. Nebraska

won 16-14 a year ago and the margin won't be much greater this time around.

Arkansas over Texas A&M: Comparative scores involving Baylor say it will be the other way around.

Wyoming over Colorado State: The Cowboys make a rare trip away from their home corral at Laramie but their quarterback Jerry Delpoyster, will be right at home.

Baylor over Texas Christian: Terry Southall is the peerless passer of the Southwest.

Dartmouth over Yale: Dartmouth always has trouble in the Bowl but this time Yale doesn't have the experience.

Tulsa over Cincinnati: Kent State over Toledo, Western Michigan over Marshall, Miami, Ohio over Bowling Green, Ohio State over Minnesota, Ohio University over Dayton.

652,296 Fans Crowd College Grid Stadiums

NEW YORK (AP) — The 10 most crowded college football stadiums last weekend were more filled than almost ever before as 652,296 fans jammed into them, the National Collegiate Athletic Bureau reported today.

Only the aggregate of 667,492 on the weekend of Nov. 21, 1959, was larger in the 19 years official national attendance records have been kept by the NCAA.

The Ohio State-Wisconsin crowd of 84,265 led the way last Saturday with Michigan State-Purdue second with 78,014.

Coach Hank Stram of the Kansas City Chiefs says Otis Taylor, 23, is the finest flanker prospect to come to the American Football League since Lance Alworth.

Miami Stars Voted As Top MAC Players

COLUMBUS, Ohio (AP) — Miami (Ohio) quarterback Bruce Matie found his favorite receiver, John Erisman, eight times Saturday on a winning combination that earned the Redskins stars back and lineman of the week honors in the Mid-American Conference.

In all, Matie completed 10 of 14 passes for 129 yards and ran for 30 more yards in Miami's clutch 33-13 victory over Ohio University. Erisman, a 6-foot-2 senior end, gained 109 yards on his eight receptions.

The Matie-to-Erisman teamwork was at its best on a 52-yard scoring pass that helped kill the Bobcats, previously undefeated in the conference. Miami Coach Bo Schembechler said both players had their best games of the season.

Others nominated this week for the MAC individual honors were backs Don Fitzgerald, Kent; Tim Majerle, Western Michigan; John Schneider, Toledo; Jay Maupin, Ohio; Andy Socha, Marshall; and lineman Ken Simpson, Marshall; Mike Christian, Ohio; Bill Sammons, Toledo; Pete Mitchell, Western, and John Brooks, Kent.

Injuries May Bench Hartman For Season

LISBON — Bill Hartman, Lisbon High School junior injured Friday night in the Lisbon-Louisville football game, probably will miss the last three games of the season.

Released Monday from Aultman Hospital at Canton, Bill is convalescing at home from a concussion — his second this fall. He will return to Aultman Nov. 3 for another examination. He is a son of Mr. and Mrs. Al Hartman and was the punter and linebacker for the Blue Devils.

Eagles Timmy Brown Is Week's Top Player

By JACK HAND
NEW YORK (AP) — "I decided I was going to have a big game or get killed early. I made up my mind to be reckless."

That was how Timmy Brown explained his super performance Sunday for the Philadelphia Eagles against the New York Giants.

"I never was more frustrated than in the first half of our game in Pittsburgh," said the Eagles' halfback. "I decided I had to go back to the way I always used to run."

Timmy ran for 83 yards in 13 carries against Pittsburgh in the second half of that Oct. 16 game and then really turned it on Sunday at Yankee Stadium.

The final statistics showed that Brown had carried 21 times for 160 yards, caught five passes for 66 yards and one TD and returned one kickoff 25 yards.

That total of 191 yards was enough to make him The Associated Press' Offensive Player of the Week in the National Football League.

Lou Groza snapped out of his field goal slump at Cleveland and booted three in a row, after six straight misses, in the Browns' 30-21 upset of Dallas. Frank Ryan threw for two TD passes, and Ernie Green ran for 56 yards in 11 carries.

Gale Sayers was the big gun for the Chicago Bears, with 16 carries for 87 yards plus a 93-yard kickoff return for a touchdown, against Los Angeles.

Jim Taylor ran for 50 yards and his eventual successor, Jim Grabowski, ran for 52 in Green Bay's 56-3 romp over Atlanta. Bart Starr completed eight of 13 passes for 217 yards and a 28-0 halftime lead before he gave way to Zeke Bratkowski.

Redskins Star Leading NFL In Total Offense

NEW YORK (AP) — Dick Bass of Los Angeles leads the runners and Bobby Mitchell of Washington tops the pass receivers in the latest National Football League statistics, but the combined leader is versatile Charley Taylor of Washington.

Taylor, rookie of the year in 1964 when he scored a tremendous double by ranking among the top 10 in both rushing and receiving, had a mediocre season in 1965 when he was hobbled by injuries.

The Redskins' fine running back has regained the touch, rolling up a total of 652 yards on a combination of 253 rushing

and 399 receiving. After seven weeks Taylor tops the list of 20 NFL players who have exceeded 100 yards in both rushing and receiving.

Bass, the top ground gainer with 539 yards, also has caught passes for 110 and a total of 649. Timmy Brown of Philadelphia comes next with 399 running, 245 catching for a total of 644.

Although Coach Otto Graham benched Mitchell at the start of the Redskins' game with St. Louis last week, Bobby wound up with two touchdown receptions and still leads the league with 32 catches for 614 yards and seven TDs.

Notre Dame Leading In Net Offense

NEW YORK (AP) — Notre Dame, which grabbed the No. 1 ranking from Michigan State several weeks ago, took over the total offense leadership this week among the major college football teams.

National Collegiate Athletic Association statistics released today show that the Irish, averaging 429.6 yards per game, have replaced UCLA to become the fourth leader in as many weeks.

Notre Dame's balanced offense has piled up 1,037 yards on the ground and 1,111 through the air, the latter putting it seventh in the country. Louisville was second with 2,104 yards, a 420.8 average.

UCLA leads Notre Dame in scoring, 36 points a game to 33.2.

Brothers Share Weekly Honors At Southern

A brother act shared honors at Southern Local in the player of the week awards coming from a game in which the Indians tied Jefferson Union.

Denny Pierson an end was named the defensive lineman of the week and Jim Pierson a safety man was picked as the defensive back.

Tom Leek, an end was named offensive lineman and Rich Rose a halfback was named offensive back.

John McCord and Bob Hill tied for most tackles during the game and McCord also had one interception.

Movies of the Southern - JU game will be screened tonight at 8.

Orioles Get Over \$11,000, Dodgers' Cut New Record

NEW YORK (AP) — The Los Angeles Dodgers, who three weeks ago established a list of World Series records they'd like to forget, have set another Series mark they can afford to remember.

The Dodgers, beaten in four straight games by the Baltimore Orioles and shut out over the last 33 innings, scored heavily Tuesday when the official distribution of series receipts was announced by Commissioner William D. Eckert's office.

Each full share for the Dodgers was worth \$8,189.36, a record for Series losers. The Orioles' full shares were \$11,683.04 — short of the record of \$12,794 per man set by Los Angeles in dividing the spoils of its 1963 sweep over the New York Yankees.

The total player pool was a record \$1,044,042.65 but the Orioles, in voting 34 full shares and cutting in 47 persons, wound up with the second-best payoff per-

76ers Capture 15th Straight, Near Record

PHILADELPHIA (AP) — The National Basketball Association's season is only a few weeks old but already the Philadelphia 76ers are working on a league record.

The 76ers, defending regular season Eastern Division champions, belted Baltimore Tuesday night 130-110 for their 15th straight regular-season victory. They have won four this season, which, plus a carryover streak of 11 at the end of last year, gives them 15.

The league record for most consecutive victories is 17 set by the old Washington team in 1946 and equaled by the Boston Celtics in 1959.

Tuesday night's game with Baltimore might be placed in the laughter category. Led by big Wilt Chamberlain, devastating as always inside, and the sharp outside-shooting Hal Greer, the 76ers virtually toyed with the winless Bullets, who dropped their fifth straight.

Chamberlain easily controlled the backboards with 22 rebounds and scored 20 points. Greer collected 21, including a crowd-pleaser just short of half court as the horn sounded the end of the third period.

The Philadelphia - Baltimore game was the only action in the NBA Tuesday night but there are two games tonight with Cincinnati at Baltimore and New York at Los Angeles.

Grid Player's Death Attributed To Shock

PITTSBURGH (AP) — The Allegheny County coroner's office attributed the death Tuesday of a 15-year-old high school football player to shock following minor knee surgery.

Clifford Eckelberry died Tuesday morning in St. Clair Memorial Hospital after five hours of therapeutic treatment failed to offset effects of the shock.

Young Eckelberry, a junior varsity guard at Moon Twp. High, had been listed in sativage condition after his admittance Monday with the injury to his right knee following a game with Keystone Oaks High School.

Texas Tackle Is Selected Top Lineman

AUSTIN (A) — Texas tackle Mike Robuck was Saturday's hero with a 90-yard touchdown runback of a pass interception. But he was a hero of another — and more important — kind last summer.

Robuck, a lanky, brown-haired 6-3 sophomore from the South Texas hamlet of Poth (pop. 1,111), was named Associated Press Lineman of the Week for his play against Rice, Texas, won, 14-6.

A soft-spoken 19-year-old whose hobby is stamp collecting, Robuck helped save his buddy from drowning in a flood swollen San Antonio creek last summer.

Here's the way he tells it: "Ronnie Swint (a Texas freshman from Muleshoe) and I had been working on a South Texas ranch all summer and we went into San Antonio one Sunday afternoon to see the sights. "We were walking along this creek that was flooded when Ronnie fell in. I noticed that a few blocks down stream the creek went under ground and I started yelling for help. "I had to run behind buildings and through alleys yelling about my friend drowning but nobody paid any attention to me. Finally a policeman heard me and we both jumped in and got Ronnie out just before the creek went under some buildings. "That was the most scared I've ever been."

Robuck, a business major, expected to warm the bench all season. That was before a rash of injuries hit the Longhorns, including senior defensive tackle John Elliott. Robuck was moved into Elliott's position from defensive end.

All the recognition for his play in the Rice game "seems kind of funny to me — I don't deserve that much," he said.

Late Field Goal Wins

CALGARY (AP) — Jack Abendschan kicked a field goal with 24 seconds remaining to give the Saskatchewan Roughriders a 28-26 victory over the Calgary Stampeders in a Canadian Football League game Tuesday night.

Hayes Would Favor Aid To Weak Teams

CHICAGO (AP) — Coach Woody Hayes of Ohio State has described as "utterly senseless" a proposal to increase the Big Ten's yearly limit of football scholarships from 30 to 45 for each school.

But Hayes did say Tuesday that he would favor increasing five or ten scholarships the lim-

It allowed schools with teams that are run down "until they are built up."

The veteran Ohio coach talked by telephone to the Chicago Football Writers about the 45-limit proposal by Forest Evashevski, athletic director at Iowa.

Hayes, who once nearly came to blows with Evashevski during a Big Ten discussion on coaching behavior on the sidelines, said Ohio State has tendered as few as 18 football scholarship a year.

"I have felt, though, that a bottom team should be allowed to get five or 10 above the limit for a year or so to build up."

Westinghouse Talks With Two Unions Lagging

PITTSBURGH (AP) — Contract talks between Westinghouse Electric Corp. and two unions continue to drag on with no settlement in sight. The company has already settled with two other unions.

The independent United Electrical Workers (UE) proposed Tuesday that a fact-finding board be appointed to determine if Westinghouse's latest offer compares with the contract reached by the UE with General Electric.

Westinghouse had no immediate comment on the proposal. The company is also continuing to talk with the International Brotherhood of Electrical Workers, whose contract runs out Oct. 31. The UE is remaining at work on a day-to-day extension of a contract that ran out Oct. 14.

Westinghouse reached agreements with the AFL-CIO International Union of Electrical Workers and the Federation of Westinghouse Independent Salariat Unions.

Cycle Strikes Parked Auto, Injuring Pair

Two district men were in City Hospital today with injuries suffered Tuesday night when their motorcycle veered off a curve on Dresden Ave. and struck a parked car.

The collision hurt Don E. Pettigrew, 28, of 713 Penn Ave., Midland, operator of the motorcycle, and his passenger, John Haynes of New Cumberland R. D. 1.

Northbound on Dresden Ave. about 9:27, the 1966 model motorcycle was damaged extensively when it crashed into the front of a parked 1964 sedan owned by Robert Cunningham of 945 Dresden Ave.

Both Pettigrew and Haynes suffered multiple injuries when they were hurled clear of the cycle, officers said.

Pettigrew suffered lacerations of the forehead, abrasions of the right side of the scalp, a possible chest injury and a possible fracture of the left jaw. Haynes received a possible fractured left jaw, bruises of the left chest and a possible neck injury.

Both were listed in "fair" condition.

The investigation remains incomplete because he was unable to interview Pettigrew. Physical evidence at the scene indicated that the motorcycle went off the street on the curve, he said.

Two friends of the injured men who were riding on another motorcycle discovered the mishap. They were identified as Orville Adkins of 518 Beaver Ave., Midland, and Ronald Fickes of Route 30, Lisbon.

Adkins and Fickes told police they preceded Pettigrew and Haynes. When they noted the other motorcycle was not behind them, they retraced their route and discovered the crash, they said.

Police filed a reckless driving charge against Pettigrew.

A collision Tuesday at 4:55 p. m. at E. 3rd St. and Broadway damaged a 1965 two-door sedan driven by Helen P. Oliver, 42, of 247 W. 9th St. and a 1960 four-door sedan operated by Susa L. Spencer, 18, of 510 1st St., Chester, officers said.

The local woman told police her auto was halted on E. 3rd when hit from the rear. The Chester girl said she was turning off Broadway onto E. 3rd and swung wide to avoid a truck. She did not realize the Oliver car was halted, she said.

Traffic Jam Hits Struck Vanport Firm

BEAVER — A traffic jam occurred in the area of the entrance of the Westinghouse Corp. Standard Controls Division plant at Vanport this morning. It was blamed on fog and picketing activity at the site.

The International Association of Machinists Tuesday struck the plant due to a local grievance issue and a meeting yesterday afternoon with a state mediator failed to resolve the issue.

Beaver County sheriff's deputies said the picketing has been orderly, but with the fog and traffic conditions there was a jam on lower Tuscarawas Rd., Division St. and vicinity. Normal conditions were restored by 7:45 a. m.

Some employees of Westinghouse failed to report to work as a result of the traffic delay, but a company spokesman said "the vast majority of workers are on the job."

Another meeting of the company and union aides with the mediator is set for today.

How Can I? By ANNE ASHLEY

Q.—How can I remove milk stains from fabrics?

A.—After moistening with warm water, apply powdered pepsin and work this into the fabric with a glass rod. Then let remain for a half hour or so before sponging with water or washing.

Q.—How can I repair loose drawer knobs?

A.—Where the screw holes have become enlarged, remove the knob, fill the hole with a sliver of wood (such as a piece of match stick), preferably dipped in glue, then screw the knob back in position. For knobs with wooden screws, apply glue to the threaded part.

Bishop Pike Urges Probe Of His Views

WHEELING, W.Va. (AP) — Episcopal Bishop James A. Pike, censured by his church's House of Bishops for "irresponsible" doctrinal statements, has asked the body for an investigation of his theological views.

Bishop Pike said he had no alternative other than to seek the inquiry.

The action, which needed the support of at least two other bishops, invokes a section of canon law which allows a bishop to call for an investigation if he believes "there are in circulation rumors, reports or allegations affecting his personal or official character."

The Rt. Rev. C. Kilmer Myers, Bishop Pike's successor in the Diocese of California, and the Rt. Rev. John P. Craine, bishop of Indianapolis, signed Bishop Pike's statement.

The next step is for Presiding Bishop John E. Hines to appoint a commission of not less than three and not more than seven bishops to determine whether the charges, if proved, would constitute a canonical offense.

There is no set time for Bishop Hines to appoint this commission.

The rumors, reports and allegations Bishop Pike felt were affecting his personal or official character included heresy charges formulated by the Rt. Rev. Henry I. Louthit, bishop of South Florida; conclusions stated in the wording of the House of Bishops' censure, and certain charges made by the bishop of Montana, the Rt. Rev. Chandler W. Sterling.

The censure of Bishop Pike came when the bishops voted 103-36 to adopt the report of a committee specially set up to investigate the possible presentment of charges against Bishop Pike.

The rebuke, while critical of some of Bishop Pike's statements and activities, specifically avoided asking for a heresy trial.

Deputy Sheriff To Be Reinstated

YOUNGSTOWN, Ohio (AP)—A Mahoning County deputy sheriff will be reinstated to his job after the grand jury failed to indict him Tuesday on a charge of assault with a deadly weapon in the shooting of a 31-year-old motorist.

Sheriff Ray Davis said Sgt. Ray Wallace would get back his job as daytime dispatcher. Detectives said Wallace shot Edward Jackson of Youngstown in the abdomen and thigh during rush hour traffic here last Aug. 2.

Wallace, 40, said Jackson tried to run him off the road. He said he got out of his car to talk to Jackson and shot twice when Jackson made a move to his glove compartment.

Wallace was off duty, not in uniform, and permitted to carry a gun, the sheriff's office said. Police said they found no weapons on Jackson or in his car.

Rhodes And Reams Carry Campaigns Into Cleveland

CLEVELAND (AP) — Gov. James A. Rhodes promised an assault on air and water pollution Tuesday while his Democratic challenger started asking questions he hopes Rhodes will answer Nov. 5 in a debate here.

Rhodes told some 500 Republicans at Lakewood Civic Auditorium that he will recommend to the General Assembly next year that Ohio "participate in depth" in the battle to stem air and water pollution.

Meanwhile, State Sen. Frazier Reams Jr. of Toledo, marched down Euclid Avenue, Cleveland's

of Ohio see, hear and compare us?"

Reams talked to Young Democrats at Notre Dame College in south Euclid, then went to Elyria in Lorain County, where he attacked Rhodes for what he called lack of progress in education and water pollution prevention.

Rhodes said the program to stop air and water pollution had not been completely worked out.

Boy Scout Troop Sets Hike Plans

Plans were made for a hike along the Sandy Beaver Trail adjoining Beaver Creek, from East Liverpool to Lisbon, when Boy Scout Troop 34 of the Penn Ave. Methodist Church met Monday night.

Tentative date for the hike are Nov. 5 and 6. Other troops in the area are invited to join in the outing.

The troop held its pioneer camp last weekend at the Seagle Club. The boys erected towers and a rope bridge to attain pioneering merit badges.

Mediators Sought In Printers Strike

TOLEDO, Ohio (AP)—A leader of striking typographical workers sought intervention of the federal mediation service today to end a strike that shut down both of Toledo's daily newspapers.

Other unions observed picket lines when the strike began late Monday and the Toledo Blade and the morning Times, with a combined circulation of 211,000,

were forced to halt publication. Dan Reetz, president of Local 63 of the International Typographical Union, AFL-CIO, said he would ask a federal mediator to set up talks with management but he added that the two sides are "way off" from reaching a settlement.

Backing the man you feel is right for the job, working to help him win office is part of American politics. It's one of the privileges of a democracy as well as essential to its survival. These two Midland works employees give of their time and effort to support their beliefs. Samuel Zuppe (left) is a furnace operator in the Titanium division. These days, as Republican committeeman in Midland's first precinct, he spends his free time promoting his candidates for state and local offices. Working along the same lines on the Democratic side is Rudolph Presutti, chairman of Midland's Democratic committee, and an employee in the 12-18 inch mill. Zuppe and Presutti are trying to encourage area voters to cast their ballots for their respective candidates on election day. "Why does my new telephone directory have more numbers than there are phones in town?"

Because your local calling area is larger than your community.

If you aren't sure where you can call toll-free to surrounding communities—just like you dial local calls—glance in the information pages of your new telephone directory. It's all right there. As a matter of fact, your directory is an excellent source for all sorts of information. For example—in addition to your toll-free calling area—information on how to make a long distance call, and Area Codes throughout the country. (It even has interesting facts about your city.) Take a look. These pages will help you get full value from your telephone service...and for shopping convenience, consult your Yellow Pages.

Use your personal directory—to jot down numbers you call most often. And keep it handy near your phone to refer to before you dial.

Human Heart Always Likes To Look Back

Memory--Greatest Travel Agent

By HAL BOYLE

NEW YORK (AP) — The greatest travel agent is memory.

For every trip a person takes outside himself, he takes hundreds within himself.

No matter how cynical or calloused by time the human heart may become, it always likes to look back to a day when it was innocent and the world seemed always in springtime. Or, it likes to recall the experiences that gave it wrinkles — for hearts, like faces, do sometimes wear wrinkles.

Asleep or awake, the mind remembers and makes endless round-trip journeys to bygone times.

Memory's train is constantly calling. Let's board it now and see where it takes us. The journey is free. Just close your eyes and see if you can remember when—

Girls blushed when the drug-store cowboys on the street corner whistled and called "Oh, you kid!"

The only women over 30 who held jobs outside the home were widows and old maids.

Every politician was afraid of the farm vote.

Most people were on a party telephone line, and some grandmas used to listen for the latest gossip while doing their evening knitting.

The first requirement of a good medicine was that it had to taste bad.

Saloons were popularly known as "poor men's clubs."

You knew you were in a home of refinement if it had a Tiffany colored glass lamp in the living room and a bowl of artificial fruit on the dining room table.

A young fellow could become nationally known by playing football well at Harvard.

In small towns, lawyers always had their offices on the second floor. So did most dentists and doctors. It made for cheap rent, and they needed the money.

Only the well-to-do ate mushrooms. Why, a body might get a toadstool by mistake, and die of poisoning, for sure.

It was possible to live and die without ever having personally to fill out a single government form.

Every cemetery had a weeping willow, and an evergreen tree.

Most corporation presidents prided themselves on the fact they had been born on a farm and still knew how to milk a cow.

Middle-aged men got all the exercise they needed by cranking the family car one-way streets would finally lick the problem of traffic tieups.

Babies got as much fun banging household pots and pans in their cribs as they now do out of playing with a \$25 educational toy — and grew up just as smart.

Red Cross Sends More Ditty Bags For Servicemen

The last shipment of Christmas Ditty Bags for servicemen in Viet Nam was made Tuesday by the Area Red Cross Chapter, making a total of 286 Christmas kits provided by community agencies in an effort to brighten the holiday season for our servicemen.

Twelve local groups of Camp Fire Girls made and filled 163 of the kits; 40 were filled by the First Methodist Church in co-operation with the Camp Fire Girls' project; 50 were prepared by the Auxiliary of American Legion Post 4; 14 were donated by individual Red Cross volunteers, and 5 by the Girl Scout Troop of the Presbyterian Church, Wellsville.

The bags were made of red or green nylon net with draw-strings of the contrasting shade. Each bag contained from 5 to 10 individual gift items, many individually wrapped in Christmas paper.

Included among the gifts were ballpoint pens, writing paper and envelopes, small address books, plastic cigarette cases, lighters, plastic soap dishes, wash cloths, foot powder, tooth paste, nail clippers, individual packages of tissues, small plastic bags, small puzzles and games, playing cards, comic books, paper back books and pencils.

The kits were mailed by the local chapter to the Red Cross field director at APO San Francisco 96312 for distribution.

Hints from Heloise

— By Heloise Cruse —

Dear Heloise: I've been repairing my sons' and husband's sport shirts in this manner for years. (This collar repair could be applied to girls' sport shirts, also.)

Do not turn the collar—that's too much work.

You will notice that the worn or torn part is an area running almost the entire length of the collar.

I sew a strip of bias tape (leftover pieces which I never discard) the length of the collar over this worn area.

The tape can be a contrasting color, and if the tear is extra wide, two strips of different colored tape can be used.

I sew the tape on before the worn part breaks through, and if I have enough leftover, I sew some on the pocket or sleeves for extra trim.

I recently repaired a red and white candy-striped shirt with red bias tape. It improved the shirt, lengthened its wearability and I used my scraps.

Conneaut Man Killed In Glider Accident

ASHTABULA, Ohio (AP)—Daryl Arbuckle, 42, Conneaut, was killed Tuesday after his glider, being towed by an automobile, crashed on Gardner Airport near North Kingsville.

The accident about five miles east of here occurred just after his craft had been released from the auto into the air, authorities said, adding that it nosedived about 35 feet.

Truck, Auto Collide In Mishap At Lisbon

LISBON—Vehicles driven by Kyle E. Rice, 47, of 521 E. Washington St. and Raymond W. Moore, 42, of the Lisbon-Columbiana Rd., collided at 4:30 p. m. Tuesday at the intersection of S. Lincoln Ave. and W. Maple St.

Officer John Vokovich said Moore was driving a 1965 pickup truck east on Maple St. and pulled onto S. Lincoln (Route 164), hitting the right rear side of Rice's 1966 convertible headed south.

Moore was charged with failure to yield the right of way.

HELOISE.

DEAR HELOISE: I read in your column about turning burned toast upside down when you scrape it. Well, I scrape the toast in any position, and then just lightly tap the burned side on a paper towel. All those little "make-your-hair-curly" particles drop out from the air holes.

CECIL H. MILLER.

DEAR HELOISE: I have a hint for children who ride their bikes when it rains.

Take a plastic bag and put it over your school books. Then when the bike is parked, the plastic bag can be taken off the books and put over the seat.

When ready to ride home, you'll be sitting on a dry seat with dry books.

C.B., AGE 10.

DEAR HELOISE: Put small

With a little pressure on the pen, the articles come out almost as neatly as when cut with scissors—and much more quickly.

All the "clipper-outers" thank you, Carol.

DEAR HELOISE: My brother kept taking the cards out of the back of the library books to use for bookmarks. Then, usually, he would lose them.

Now when I lend him a book, I give him a large rubber band. He just slips it over the cover and the pages to mark his place, and the library gets their cards back.

PENNY FIDLER.

DEAR HELOISE: Here is a useful hint for anyone having a family reunion or a cookout. Make hamburger patties and wrap each one individually in aluminum foil and put in the freezer.

When mealtime comes, just put the hamburgers in your oven or on the grill in same foil and cook.

No mess to clean up and no pieces of moleskin on bottom of burned burgers.

Crash Damages Tire And Fender Of Fire Pumper

A city fire department pumper was damaged early Tuesday afternoon when bumped by an auto while returning from a grass fire.

The collision on McKinnon Ave. about 20 feet west of St. Clair Ave. at 1:26 p. m. damaged the right rear fender and tire of the 1949 model pumper and the left front bumper, fender and grill of a 1953 two-door sedan operated by Pauline Viola Railing, 31, of 457 Gardendale Ave., police said.

The fire truck was driven by Fireman Adolphus Knott, 40, of 1417 Smithfield St. He and Fireman Russell Dray were returning to the North Side station after responding to a grass fire alarm at 1:06 at Blackmore and Fisher Aves. in Maplewood. The grass fire caused no damage, firemen said.

Patrolman Orin C. Smith investigated. The damage to the fire truck's fender was "minor," he said. The right rear tire was broken.

Knott told the officer he drove the truck downgrade on St. Clair and turned into McKinnon Ave., preparing to back into the station, when it was hit in the right rear by the car. The woman said she was following the fire truck and believed it would turn into the station rather than swing onto McKinnon Ave.

Medical Bill OK'd

OTTAWA (AP)—The Canadian government's controversial medical insurance bill was approved in principle Tuesday night by the House of Commons, but opposition critics indicated they will shower it with amendments to put off its final approval.

New Ownership To Begin Nov. 1 At Nursing Home

A change in the ownership of Greystone Nursing Home No. 2 at 1015 Riverside Ave., Wellsville, was announced today by James and Juanita Anderson of Hess Rd., East Liverpool, owners and operators of two nursing homes in Wellsville.

Their daughter, Mrs. Margaret Mick, and her husband, Lee Mick, also of Hess Rd., will become the owners and operators effective Nov. 1. Mrs. Mick has been supervisor of the home, which accommodates 16 women, since her graduation from East Liverpool High School in 1960.

Her husband, a graduate of Wellsville High School in 1958, was employed for four years by the Sanford Plumbing Co. of East Liverpool, served three years in the Army and began employment with the Pennsylvania Railroad Co. last January.

Mr. and Mrs. Anderson will retain ownership and will continue to operate Greystone Nursing Home No. 1 at 1037 Main St., which they opened in 1958.

GOP May Make No Gains, Pepper Says

ATHENS, Ohio (AP)—Republicans claiming they will gain seats in the U. S. House next month may gain none at all, a Democratic congressman from Florida says.

Rep. Claude Pepper, speaker here Tuesday night at a party fund-raising dinner, said he has noted a "Democratic trend" that is developing nationally for party candidates in the Nov. 8 election.

Pepper said the reason the GOP figures not to do nearly so well as it hopes to "is because they do not have constructive programs to offer."

The Florida congressman spoke before about 250 party faithful at a dinner for Rep. Walter Moeller, seeking re-election, and other local Democratic candidates.

Sukarno Not Expected To OK Execution

JAKARTA, Indonesia (AP) — Political circles speculated today that President Sukarno would never sign the execution order for his former closest aide and adviser, Dr. Subandrio.

Subandrio, Sukarno's deputy premier until last March and Indonesia's foreign minister for nine years, was sentenced to death for treason Tuesday night by a special military tribunal which found him guilty of aiding the attempted Communist coup last October.

Throughout the trial, Subandrio denied any involvement in the coup.

When asked by the court if he wanted to appeal his sentence, Subandrio said, "No," but the court allowed him 30 days to appeal to Sukarno for clemency.

The tribunal's verdict did not state how or when the death sentence would be carried out. Five others convicted of involvement in the coup also have been sentenced to death.

Some observers believe the military government may never execute Subandrio because he may be worth more to it alive as an instrument against Sukarno, who still has a vast following in the nation despite his loss of actual power. Many be-

lieve the court wanted to use Subandrio's testimony to deflate Sukarno's image.

Housewives Help Hike Food Price, Leader Declares

CINCINNATI (AP) — Housewives themselves have helped bring about higher food prices, says an Ohio farm leader. Byron Frederick.

"They want pretty packages, and 'instant this' and 'no bake that,'" said Frederick, who's to be installed today as president of the 90,000-member Ohio State Grange.

"These ready-to-serve foods boost prices and often a deco-

orative package costs more than the food," he added in an interview Tuesday.

Frederick said "food prices have not risen as fast as other commodities — like automobiles and clothing. Americans are spending less of their total income for food than any other country in the world."

School Is Reopened

LISBON — The Columbiana County School for Retarded Children at Elkton reopened this morning after being closed Tuesday because of sewer trouble, according to John Gruszecki Jr., administrator.

Hospital Treats 6 Hurt In Varied District Mishaps

A woman injured in a fall and a girl scalded by coffee were among six area residents treated at City Hospital Tuesday.

Mrs. Regina Brightwell, of Glenmoor, was in "fair" condition today with bruises and cuts of the left ear received in a fall against a refrigerator at home.

Laura Blosser, daughter of James Blosser of 30 B. Midland Heights, Midland, suffered scalds of the left elbow when a coffee pot spilled.

Paul Volino, son of Michael Volino of Wellsville, R. D. 1,

received bruises of the left knee when he ran against a sewer pipe.

In a fall at home, Jan Densmore, a daughter of Jack Densmore of Route 2 near Chester, received a knee injury.

Paul Adams of 533 Virginia Ave., Midland, was treated for a thumb injury after his hand struck a wall.

Guy Lindesmith, son of Don Lindesmith of 1719 Clark Ave., Wellsville, suffered a fractured left arm while playing football.

Zachary Taylor, when chosen as a presidential candidate, acknowledged that he had never voted in his life.

do pennies make a difference in your food bill?

You bet they do. And we should know.

We built our business by saving pennies for generations of folks like you.

For instance, take our policy on multiple-priced items.

If an item is priced 3 for 25¢, the price for one is obviously 9¢. But what happens if you want two?

Do you pay 2 times 9¢ or 18¢? Not at A&P.

We sell it at 2 for 17¢. That's the fair way—the A&P way.

Yes, in the food business... in food budgeting, pennies make a difference. We watch them for you and for us.

Is this a good reason for shopping A&P? It's one of many.

Planners Ponder Employee, Office

Members of the City Planning Commission agreed Tuesday a planning study is needed.

GLENN WAIGHT submitted a written report on behalf of a subcommittee which studied a plan for renewal of the downtown business area prepared by the professional planning firm of Carroll V. Hill & Associates as part of a master plan study.

Waigh said the subcommittee agreed in general with the consultant's long-range proposal for establishment of a pedestrian mall on E. and W. 5th Sts. and Washington St. eliminating auto traffic and parking from the center of the business area.

In one suggested change from the planners' report, the subcommittee recommended that an area on the west side of Broadway near E. 4th St. be included in a general "cultural" area along the western end of W. 5th and W. 6th Sts.

Members of the commission agreed a so-called coordinator should be named to work on the programs on a regular basis. The subcommittee's report kept in touch with federal agencies with which the commission is working, handle community relations to explain the various projects and perform other duties.

Establishment of such a post would require legislative action of Council, they pointed out. Eckert said the employee could be paid at least in part with funds provided through federal aid on programs which the commission expects to undertake.

The commission also discussed information obtained last year from a representative of the office of Housing and Urban Development in Washington who East End — at least — by the came to East Liverpool to make the mall is constructed as a preliminary study of a providing the danger of snarls," he said.

Other members of the subcommittee making the study were James R. Rizer, Robert Beatty, W. Leland Thompson, Howard Kaufman and William Olver.

ECKERT REPORTED that Solicitor Joseph W. Cooper made a study of proposed zoning regulations with Daniel Ziegler II, a representative of studies on modernized local transportation systems. Eckert explained.

The program includes providing of funds for purchase of new buses, where needed, with the government also paying a portion of the cost, he said. The bus line operator is reimbursed for his services in lieu of his normal profit from the operation, Eckert said.

The outgrowth of such a "demonstration" is a detailed study report which can be made available to any community in the world showing why the local experiment failed or succeeded and what problems it encountered, as well as Frank Manigault, secretary.

Similar programs now are being set up at New Castle, Pa. and Rome, N. Y. The first step in obtaining such a program in East Liverpool would be submission of a preliminary report last night's session.

8 Are Treated After Wreck

Fog Blamed For Crashes Near Salem

Two Chester adults and six children were taken to City Hospital for examination and treatment this morning following an auto collision at Carolina Ave. and 3rd St. in Chester about 8:30.

One car, driven by Mrs. June Gregory of 321 Adolphus St. was turned over on its top by the force of the impact. Chief Audley Campbell said.

Mrs. Gregory was treated for contusions of the forehead, strained neck and contusions of the shoulder.

Austin Gregory, her son, received a possible fractured nose and contusions of the upper lip, and James, another son, contusions of the forehead and right hand and a slight concussion.

Her daughter, Deborah, was examined, but was found to be uninjured.

Mrs. Frances O'Hara of 110 Pennsylvania Ave. was the driver of the other auto. She was treated for contusions of the arm.

Also treated were Bonnie O'Hara of 110 Pennsylvania Ave. for contusions of the leg and chest, and Roby Ward of 316 Adolphus St. for contusions of the scalp and right ankle.

Cheryl Rodgers of 110 Pennsylvania Ave. was X-rayed for a possible injury of the left leg.

All the occupants of the two autos were released following examination and treatment.

Chief Campbell said the 1965 Gregory car was entering Carolina Ave. from 3rd St. at the stop light, and was hit broadside by Mrs. O'Hara's 1963 auto, heading eastward up Carolina Ave.

Each driver reported she had a green light, he added.

A Homeworth woman and child were injured in one of three mishaps blamed on heavy fog on Route 62 west of Salem this morning, the Ohio Highway Patrol at Lisbon reported.

Delania Arcola Kaiser, 32, of Homeworth was headed north on County Rd. 401 about 6:10 a. m. when her 1966 station wagon crossed the intersection with Route 62, a half-mile east of Alliance, and rammed a tree.

She suffered a knee, lacerations of the mouth and chest injuries. Kathryn Kaiser, 2, a passenger, received cuts of the lip and mouth, loosened teeth and a cut on the leg.

The front of the vehicle was demolished, officers said. The two were taken to Alliance City Hospital by a passing motorist.

Two other mishaps were being investigated later this morning on Route 62 between Damascus and Westfield, apparently due to poor visibility because of dense fog, desk officers said. There was no immediate reports of injuries.

Q.—How should furs be dried?

A.—Never dry a fur that has been worn in rain or snow near any heat. Intense heat injures the fur. Instead, remove the excess moisture with a dry cloth, then hang the fur in a cool place to dry.

EXPECTANT MOTHERS AND BABIES NEED VITAMINS

Medical authorities and public health agencies are in agreement about the need of vitamin supplements for expectant mothers. They also state that babies should take special vitamin compounds to help their growing bodies. These vitamins are one of the reasons for reduced infant mortality.

But the proper dosage and formulae required are so important that a physician should be the only one to choose which ones expectant mothers and infants should take. Therefore, physicians specify the particular dosage and brands they believe will help most. We carry them in stock and advise you to take no other.

Court Dismisses Tax Charges As Defendant Pays

Learning the defendant settled his account with the city Tuesday afternoon, Judge Samuel M. Chertoff today dismissed an affidavit in which Onie Logan Sr. of 1210 Erie St. was accused of violating the municipal income tax law by failure to file an estimate of 1966 earnings.

Logan appeared before the judge this morning with a receipt showing the payment. He had failed to appear for a scheduled hearing Tuesday and the court had ordered a bench warrant for his arrest. However, no warrant was issued, as Logan appeared later in the day and was directed to the tax office to make a settlement.

Questioned by the judge about his failure to appear yesterday, Logan said he understood he was to appear today. Logan was ordered to pay the court costs.

Trust Plan Explained At Meeting Of Rotary

Ray H. Wilson, trust officer of the First National Bank, discussed "Estate Planning and Use of Trusts" at the luncheon meeting of the Rotary Club Tuesday at the Travelers Hotel.

The principal function of a trust department, Wilson explained, is to manage property of others in accordance with their wishes within the framework of applicable laws and regulations set up by the state of Ohio and the Internal Revenue Service.

The trust department, he said, is an entirely separate banking function and has no connection with receiving checking or savings deposits or making loans.

Trust officers must not be negligent, he emphasized, and are checked periodically by bank examiners. A five-man trust committee, which meets once a month offers advice, he added.

Wilson outlined plans for couples or individuals in various circumstances.

Setting up a trust, the speaker said in conclusion, offers the advantages of professional management, flexibility of funds, continuity of management and

expert advice in handling tax matters.

Visiting Rotarians were Mike Hornick, Lester Smith and Tom Boyd of Midland and Howard Mifflin of Warrenton.

Other guests included William Brokaw, Charles Gause, Collin Neal and Harry Leslie. Arthur V. Doak presided.

Police Chief Collapses, Dies

6 Killed As 2 Cars Crash

CHARDON, Ohio (AP) — Mrs. Frank Zalar was driving west toward Cleveland on U.S. 6. There were four adults and four children in her car. They apparently were heading home after an outing at a relative's farm in Geauga County.

Charles E. Strothman was driving the other way. He had one passenger.

The two autos collided in a grinding crash of metal and glass near the crest of Stuckey Hill, about three miles west of here.

Five persons, including a baby boy, died in the wreckage.

Chardon Police Chief John R. Bohl, 51, rushed to the scene. He collapsed of a heart attack and died later in Geauga Community Hospital. A Chardon photographer, Robert A. Sinar, 40, who accompanied Bohl to the hospital, also suffered a heart attack. He was reported in poor condition.

Sheriff's deputies said they believe it was the worst traffic accident in the county's history.

"Both cars had their frames buckled and every window was smashed in both cars," said Ohio Highway Patrolman Raymond R. Smith, first to reach the scene.

Killed were:

Mrs. Frank Zalar, 23, Cleveland; her son, Frank Jr., 3 months; Mrs. Katherine Zalar, 52, Euclid, mother-in-law of Mrs. Frank Zalar; Mrs. Mary Mesojedic, 60, Euclid, who was the sister of Mrs. Katherine Zalar; and Strothman, 27, Cleveland.

Mrs. Mesojedic and the elder Mrs. Zalar were widows.

The injured:

Mrs. Janette Barbic, Mrs. Mesojedic's daughter, 25, Euclid; her sons, Kurt Barbic, 15 months and Eric Barbic, 3; Jeffrey A. Martin, 4, Mrs. Barbic's nephew and son of Mr. and Mrs. Fred W. Martin Jr., Wickliffe; Kenneth Hlabse, 21, Cleveland, the passenger in Strothman's auto.

Mrs. Barbic and Kurt were transferred to Cleveland Clinic and reported in critical condition. Eric Barbic, Jeffrey Martin and Hlabse were reported in fair condition at Geauga Community Hospital.

A Willoughby Hills patrolman and a state patrolman applied mouth-to-mouth resuscitation and external heart massage before Chief Bohl was taken to the hospital.

He was just walking towards the accident scene when he collapsed.

Add Isometrics For Fast Slimming

There is no mystery why hips are a common figure problem. The gluteus maximus, that large muscle upholstering the backside of the hips, is naturally fleshier on a woman's figure than on a man's figure.

Today we spend most of our walking hours in some sedentary way, so these muscles lose tone. Fat accumulates on muscle-lazy areas. Alas, once the fat has made a home for itself, it clings.

PRECISION calisthenics will work wonders, particularly when the isometric principle of muscle contraction is added. In this exercise session we will deal firmly with the trio of hip muscles. It saves time to know the specific muscle action follow through.

The gluteus maximus is brought into direct action when the leg is either flexed or extended past a 45-degree angle. This principle is put into effect in the first exercise.

Position: Lying on left side, head on folded arm, legs straight down.

Action: Vigorously flex right knee toward chest. Then, shoot leg straight down and swing leg rearward — past a 45-degree angle. Hold the muscle contraction at this high point, for holding increases muscle tone. Repeat 5 to 10 swings. In swinging leg rearward, keep knee straight. Change sides and repeat. Let the rhythm be 1-2-s-w-in-g. . . hold. Hold to a slow count of six.

To discipline the amphi-r curve on the side hipline, roll. Position: Sit on floor, leaning slightly back to bring weight to bear on upper hipline. Bend knees so as to shift angle of roll. Have arms out at sides to push and brace.

Action: Slowly and heavily roll along one thighline, and back across hips to other thighline. Push with palm of one hand and brace with the other. This roll irons out thighline bulges.

Finish with a swing action.

POSITION: Lying on right side, legs straight down, left leg on top of right. Palm of hand braced on floor for support.

Action: Swing top leg forward, past 45 - degree angle, then swing vigorously rearward and forward again. On the second swing to the rear, h-o-l-d. Hold for a slow count of six, then swing again. Repeat complete routine 10 times, change sides and swing again.

State, Federal Mediators Eyed In Phone Talks

PHILADELPHIA (AP)—State and federal mediators will be asked to enter contract talks between the Federation of Telephone Workers of Pennsylvania and the Bell Telephone Co., where the chance of a strike continues to grow.

The federation, which said it will ask for the mediators, represents 11,000 employees across the state.

"In event a contract is not attained by midnight Oct. 26, there is practically no possibility of avoiding a strike," said L. C. Glendenning, executive president of the federation.

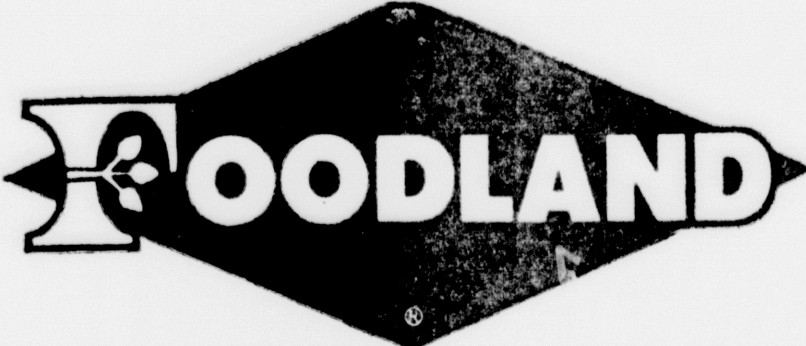

A company spokesman, however, said the firm was "rather surprised at the militant tone of the union's statement because there has been excellent progress during the negotiations so far."

The spokesman said out of 67 contract demands originally stated by the union, all but a half dozen have been resolved.

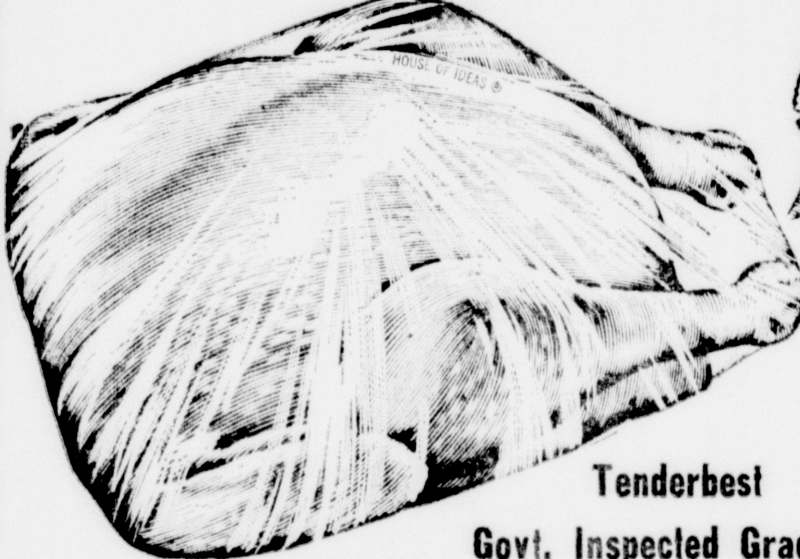

The contract negotiations involve 9,500 plant and 1,500 accounting workers in 300 Pennsylvania communities.

The federation earlier this month said its members approved a strike by mail vote, 7,151 to 1,604.

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: Recently you put down salespeople who yak on the phone and keep customers waiting. You said they were "rude, rude, rude."

Now, will you say something to the rude, rude, rude customers who come to the store before and after hours and try to get in?

My husband and I own a small shop. Our shop opens for business at 9 a.m. We close at 5:30 p.m. We get down to work at about 8:30 a.m. and we need every minute to check stock, mail and open packages, make telephone calls and do countless other chores.

Yet almost every morning some inconsiderate slob hangs on the door 20 minutes before we are supposed to open. If we don't open up they go to the back door and holler, "I know you're in there."

We have this same problem at closing. Although we have our hours posted clearly in the front window many people beat on the door and want us to open up for them.

Please tell the American public that this is rude, rude, rude. Thank you. — ALSO HUMAN BEINGS.

Dear Human: It may be rude, rude, rude but if I owned a store I wouldn't mind opening up for a customer who was a little early or a little late. It might be the best sale of the day.

Of course, I've never owned a store and I could be wrong.

How about some word from more of you on the other side of the cash register?

Whole Works

Dear Ann: This is a reply to my wife who is in the same category with "Getting Notions." She announced unashamedly that she could not remain true to me because I'm "low-key, undemonstrative, unaffectionate and indifferent."

Will you please tell me, Ann, how a man can work up any enthusiasm for a hypocritical, sanctimonious, self-centered, detached, insensitive, erratic, twisted, stupid, unresponsive, uncommunicative, warped, sullen, capricious, unpredictable, deceitful, punitive, self-righteous, obstinate woman who never has been wrong about anything in her whole life?

Don't tell me I need a doctor. What I need is a woman. — SMART BUT DUMB.

Dear Smart But: You must be dumber than you are smart—or you would not have married a hypocritical, sanctimonious, self-centered, detached, insensitive, erratic, twisted, stupid, unresponsive, uncommunicative, warped, sullen, capricious, unpredictable, deceitful, punitive, self-righteous, obstinate woman who never has been wrong about anything in her whole life.

Crazy Advice

Dear Ann: Sometimes your advice is so crazy that I think

you are putting us on. The answer you gave to the woman whose husband divides the newspaper with her and then falls asleep under his half before she gets a chance to read it burned me up.

Why did you tell her to buy two papers? Why didn't you tell her that the creep could sleep under yesterday's paper? If he's asleep, what difference does it make? — HONEST.

Dear Honest: If the wife could catch him just before he dozes off and substitute yesterday's paper that would be a peachy solution. Thanks.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

Air Force Posts Open In Science And Engineering

The Air Force is seeking applications from college seniors and graduates with academic backgrounds in science or engineering for the officer training school program, according to Sgt. Ray Stanley, local recruiter.

Air Force commissioned officer requirements are increasing. Many of the present Air Force officer vacancies are in the scientific and engineering areas.

According to Sgt. Stanley, the officer training school program "offers an excellent opportunity for college-trained scientists and engineers to fulfill their military obligation as commissioned officers while working in an Air Force job commensurate with their academic background."

Applicants will know their Air Force career area before they

receive an officer training school class assignment. Seniors may apply before graduation.

The Air Force also is accepting officer training applications from college seniors and graduates for assignment to pilot navigator and non-technical career areas, Sgt. Stanley added. Further details are available at the recruiting office on the third floor of the City Building on W. 6th St.

Upland College Auctioned Off To Salvation Army

UPLAND, Calif. (AP) — For the last time, an Upland College official pronounced a prayer in the school's small wooden chapel.

The 150 persons crowding the church ignored the hymns. They were waiting for the next speaker.

"750—Who say 750? Okay 650, who say 650?" chanted the next speaker, auctioneer Marsh Dazar. Silence greeted his question.

The bidding began on Upland College, an 11-acre liberal arts school run by the Brethren in Christ Church for 46 years in this small town 45 miles east of Los Angeles.

The auctioneer claimed it was the first auction of an entire college.

The college, its new \$300,000 dormitory, gymnasium, athletic

field, classrooms, administration building and their furnishings, went to the Salvation Army for \$525,000. It says it will use it for an educational and conference center.

The college trustees still have until Friday to change their minds and accept a bid from others, such as the Bible Standard College of Eugene, Ore., which offered \$475,000.

The trustees decided to sell the school last year because of declining financial support, a spokesman said.

The church decided to merge Upland with its other school, Messiah College in Grantham, Pa.

Auctioning, rather than selling through a broker, seemed a good method of quick sale, a school spokesman said.

Dean Comes To You 'Live'

"Live television is dead, but days of the week, Garrison and Dean Martin comes as close to everybody else involved are exhuming the corpse as any-

A few years ago Martin's buddy, Frank Sinatra, tried to do a weekly TV show on this basis for ABC. First it was done on film, then later moved into the El Capitan Theater on Vine St., Hollywood, and performed "live," and by the end of the season there was no Frank Sinatra Show.

It's Martin's second season now, and although the rating on the Nielsen earthquake scale is far from earth-shattering, he can say he hasn't been pushed into doing anything he didn't want to do, like working more than one day a week.

MAYBE GARRISON is right and Martin is the only one who can work TV in this offhand manner. Garrison himself has produced everything from the old ABC-TV Super-Circus with Mary Hartline (on a \$35 budget) to the Sid Caesar shows (the ones with Gisele Mackenzie), and under the Martin regimen he seems to be thriving—and cool.

"Dean is not easy to know, and then there's that image he's fostered of the lush and man-about-town, but that's not Dean.

"Would you believe," Garrison continues, in the best Maxwell Smart idiom, "Dean with his kids and all of them eating peanut butter sandwiches in his dressing room while watching a tape of the show?"

NATURALLY no one would believe such a thing about the ne'er-do-well head of the Martin family. Maybe one kid and a bottle of champagne and can of caviar or Sinatra and five "broads" and the Count Basie Band—but peanut butter? Forget it.

In fact, if Martin doesn't put the quash on the sickening sweet rumors which Garrison keeps peddling about him, he's likely to wind up on daytime TV with Pat Boone.

Kennedy Will Speak In Freeman's Behalf CANTON, Ohio (AP)—Sen. Edward M. Kennedy, D-Mass., will speak at the Akron-Canton Airport Sunday in behalf of Robert D. Freeman, Democratic candidate for 16th District U.S. Representative.

Cancellation of a speech in Athens made it possible for Kennedy to come to the 16th District, said supporters of Freeman who is opposing Republican incumbent Frank T. Bowhakes.

WHILE MARTIN is out on the golf course or making a movie or whatever else consumes his time the other six scrapers.

Scores Of Citizens Aid Strangler Hunt CINCINNATI (AP)—Scores of citizens with police experience have responded to calls to aid police in the search for a rapist-strangler who has terrorized the city since December.

By Tuesday night, the list of citizen-volunteers had grown to 232.

Five Cincinnati women had been strangled and raped since December, and police have little to go on in the hunt for the killer. The latest slaying occurred last Thursday night.

The fear generated by the killer has resulted in Cincinnati and neighboring communities to ban Halloween trick-or-treating at night.

To Air Reds Games CINCINNATI (AP)—Claude Sullivan and Jim McIntyre have been rehired to do the radio broadcasts for the Cincinnati Reds in 1967.

Fred Waring Shaken Up In Bus Mishap

PITTSBURGH, Pa. (AP)—Bruised but not battered, Fred Waring hopes to gather his musicians here today and resume the annual six-month tour of his Pennsylvanians.

Waring hoped to keep a scheduled date Thursday night in Chambersburg, Pa., even though 12 of his performers were left in hospitals from a bus accident Tuesday on the Pennsylvania Turnpike. The bus driver also was hospitalized.

A state trooper surveying the accident scene about 14 miles east of Somerset, Pa., and 70 miles east of Pittsburgh, said: "They were pretty lucky. No one was killed."

But Waring, celebrating his 50th year in show business, was not too upset by the accident.

Mr. Waring is in real fine shape and taking things real well," his publicity director, Fred Scrutchfield, said Tuesday night.

The group was en route to Pittsburgh for appearances Tuesday night and tonight when their chartered bus ran into the rear of a tractor trailer. The shows were called off.

Most of the injuries were cuts and bruises of the musicians' faces and limbs. Some lost teeth. Others received head bumps and back injuries. All the performers hospitalized — 10 at Somerset County Memorial Hospital and two at Bedford Community Hospital — were listed in fair condition.

Scrutchfield, who was following the bus in an automobile said Waring was seated in the rear of the bus facing the back. He said that was one of the reasons he escaped major injury.

The most seriously injured was the bus driver, Jack Peterson, 40, of Fobres, N.J. He was reported in serious condition at the Somerset hospital.

Ohio Woman To Be 103 On Thursday HILLSBORO, Ohio (AP)—"I just live on. Don't ask me why. I guess it's the Lord's will," said Mrs. Laura Belle Spilker.

She will be 103 years old Thursday.

Mrs. Spilker lives with her youngest son, Ralph, 74, at near-by Dodsonville. She has lived all her life in Highland County.

Copy Reader Cited In Death Of Woman

CINCINNATI (AP)—A copy reader for a Cincinnati newspaper has been charged with first-degree murder and was scheduled for arraignment today in police court.

Eugene E. Fiske, 48, was arrested Tuesday following the discovery of the body of Mrs. Virginia Wolpert, 47, in his apartment on the near North Side. She was beaten to death.

For the last year, Fiske was a copy editor for the Cincinnati Enquirer. He has also worked on other newspapers.

He was arrested in a motel in Kenton County, Ky., and was returned to Cincinnati after waiving extradition.

Detective Chief Jacob Schott said Fiske, a divorced father of three children had planned to marry Mrs. Wolpert, a widow, but indicated he had been upset because he felt she had associated with another man recently.

Fiske and Mrs. Wolpert lived in the same apartment building.

Police received first word of the slaying when a man who had gone to a northern Kentucky restaurant left a note, saying:

"Call police. Tell them to check apartment 18 at 2965 W. McMicken Ave. (Cincinnati). Tell them they'll need an ambulance."

Patrolman Giles Prost was sent to the scene and found the body. Fiske was arrested two hours later in the motel.

Police said Mrs. Wolpert had spent the night in Fiske's apartment after one of her two sons, Joseph Wolpert, 27, and his family arrived here for a visit. The son is in the Navy.

Fiske was born in Celina, Tenn., the son of a newspaper publisher. He has been a newspaperman for 24 years, working on newspapers in Knoxville, Tenn.; Detroit, Toledo, Las Vegas, Amarillo, Tex., and briefly for the Kentucky edition of the Cincinnati Post & Times-Star before joining the Enquirer.

Police records show Mrs. Wolpert was the victim of an attempted rape on Aug. 27, 1965. She said then she was kidnapped in her automobile and was left nude in a steel trash container behind a school.

Erase Poverty By 1975 Rights Leader Proposes Giant 'Freedom Budget'

NEW YORK (AP)—A Philip Randolph, civil rights leader, today proposed a massive "Freedom Budget" designed to wipe out poverty in the United States by 1975.

The plan calls for increasing the federal budget from the present \$112.8 to \$155 billion within nine years, a \$2 hourly minimum wage, setting up a guaranteed income program for persons who cannot get jobs, and increasing investments in education, housing, vocational training and health services.

Randolph, president of the Brotherhood of Sleeping Car Porters, AFL-CIO and chairman of the 1963 march on Washington, said the budget differs from similar efforts in the past because it outlines strict time schedules. "We propose and insist," he said, "that poverty in America can and therefore must be abolished within 10 years."

Although the main burden of the budget was left with the federal government, it also called for increased state expenditures.

Randolph said the budget was not predicated on cutbacks in national defense and that its "broad approaches" could be implemented even with an expansion of the Viet Nam war.

Attaining all the freedom budget's goals would not place "an excessive strain" on our production capabilities, the budget report contended. Costs, it said, would be met by production increases from a greater number of people working for increased incomes.

The budget aims at achieving four goals:

Restoration and maintenance of full employment.

Improved living standards for greater numbers of people through technological advances.

More equitable distribution of goods and services.

Formation of national policies in accord with standards of social justice.

Doctored For Fall Campaigns

Bailey Raps Republicans On Johnson's Recording

WASHINGTON (AP) — Democratic National Chairman John M. Bailey charges Republicans have employed "an enormous and despicable untruth" — an allegedly doctored recording of a speech by President Johnson — in their fall congressional campaigns.

Bailey's accusations came after the Fair Campaign Practices Committee disclosed the Republican Congressional Campaign Committee had asked GOP candidates not to use the tape recording.

In Grand Rapids, Mich., Republican Richard M. Nixon accused Sen. Robert F. Kennedy, D-N.Y., of undermining Johnson by his statements on Viet Nam. "It can only weaken our attempts to build a stronger united front," the former vice president told a news conference.

Bailey entered the flap over the allegedly edited tape recording by charging in a statement Tuesday night that the incident marks a new "low point in dirty campaign tactics."

He said Republicans "have been caught red-handed" in what he termed "the most flagrant example of deliberate distortion I have seen in all my years of political campaigning."

Republicans, meanwhile, challenged the objectivity of Samuel J. Archibald, executive director of the Nonpartisan Campaign Practices Committee set up to police electioneering methods. Rep. Bob Wilson, R-Calif., said Archibald "is still on the pay roll of the Democratic majority in the House of Representatives."

Wilson also said the GOP group was informed Archibald had turned the questioned tape over to the Democratic Congressional Committee and had inspired newspaper stories about it. Archibald denied this.

The quotation, with the allegedly obscured parts in parenthesis:

"Now on the inflation problem, if you're distraught, and if you're worried about high prices, and if you've got a stomach ulcer (because of high wages, if you are concerned about hogs bringing too much, calves bringing too much or wages getting too high,) and you're really worked up about inflation it may be you ought to vote Republican — because there's one guarantee I can give you from my years of experience: if you vote Republican, and by chance you should win, you won't have to worry very long about high prices (or high wages)."

Elsewhere on the political front, Michigan Gov. George Romney indicated he doesn't care much for the theory that to be a leading contender for the 1968 Republican presidential nomination he will have to carry a senator and three congressmen to victory in the November election.

People In News

MEMPHIS, Tenn. (AP) — David Pitts need worry no more. They're going to repaint his favorite bomber.

Pitts, a 13-year-old from Pleasant Grove, Ala., was upset about the state of the Memphis Belle, a famous World War II B17 bomber. He felt it was deteriorating at the National Guard armory in Memphis.

David asked if something couldn't be done about sprucing up the bomber, the first to fly 25 combat missions over Europe.

The American Legion has decided to paint the craft and to put proceeds from program sales at the national American Legion baseball tournament to be played in Memphis next year into a permanent repair and maintenance fund.

LONDON (AP) — Prince Charles, heir to the British throne, has a broken nose. It happened Monday in a rugby match at Gordonstoun, his Scottish school, Buckingham Palace announced Tuesday night.

Prince Charles, 17, was released after treatment in a hospital.

ASHEVILLE, N.C. (AP) — Six of Mr. and Mrs. Harley Harwood Jr.'s nine children returned to their three-bedroom home Tuesday after having their tonsils removed in a hospital Monday.

The mother said the family physician advised sending the six children to the hospital at the same time "to save a lot of trouble."

LOS ANGELES (AP) — The former wife of comedian Ed

Wynn, who died last June, has filed suit for \$100,000 from his \$290,000 estate.

Dorothy Nesbitt Wynn, 57, said in the suit filed Tuesday that she should receive the money because Wynn failed to give her alimony payments agreed on.

They were married from 1946 to 1956. Wynn died at age 79 of cancer, leaving the bulk of his estate to his son, actor Keenan Wynn, 49.

Powell Faces Jail And Fine On Contempt

NEW YORK (AP) — Rep. Adam Clayton Powell, found guilty of civil contempt of court for the third time, has been sentenced to 30 days in jail and a \$250 fine if he doesn't produce a

financial statement for a panel of judges by next Monday.

But the new court ruling, stemming from the Harlem Democratic congressman's refusal to pay a \$154,000 libel judgment, may not subject Powell to arrest even if he ignores it.

The civil contempt warrant can be served only within New York and Powell has avoided entering the state under the similar terms of two previous rulings.

The Appellate Division, the state's second highest court, set aside a Sept. 9 decision by a State Supreme Court justice holding that Powell was innocent of wilful failure to furnish an accounting of his finances.

The litigation centers around a defamation of character judgment against Powell after he called Esther James of Harlem a "bag woman," or payoff collector for police, on a 1960 television show.

How Can I?

By ANNE ASHLEY

Q.—How can I stiffen the bristles of a hairbrush after washing it?

A.—Dip the bristles into milk and water, using equal parts of each, then dry, preferably before a fire. Dipping the bristles into a strong solution of alum water is also effective.
